

SOLID STANCE

STEP STABILIZER KIT

GROUND SUPPORT WHERE IT'S NEEDED MOST

Take the bounce out of your RV or trailer's entrance step with the Solid Stance Step Stabilizer Kit by Lippert. This is one of the most versatile RV step enhancements on the market that can ground most standard entry steps for improved stability and convenience. And better yet, this kit is compatible with all Lippert double and triple Steel Radius Steps as well as our double and triple Alumi-Tread® Hybrid Aluminum steps, plus a wide-variety of non-Lippert assemblies — making the Solid Stance the easy choice when it comes to upgrading your RV's entry steps.

make your experience better.**

GROUND SUPPORT WHERE IT'S NEEDED MOST

No more bounce

By adding the Solid Stance™ Step Stabilizer to your RV entry steps, you get the ground support you need to eliminate unwanted bounce and instability when going in and out of your RV

Dual adjustable legs

Compatible with height ranges of 5" to 14", this kit comes complete with dual, individually adjustable legs that have four adjustment angles to adapt to uneven terrains

DIY installation

Within 15-20 minutes, RV owners can have their Solid Stance installed and ready for the road ahead — plus, this kit stays attached to your steps for easy storage

The right fit

The Solid Stance is compatible with all Lippert double and triple Steel Radius Entry Steps as well as our double and triple Alumi-Tread® Hybrid Aluminum Entry Step configurations, plus a wide-variety of competitor double and triple assemblies.
