USB CHARGING

Attach Novex Battery to Ooze Magnetic USB Charger, or connect Ooze Micro USB charger (sold separately) to USB port on bottom. When charging battery, ● 3.0V light will be on. When charging is complete, ● 4.2V light will turn green.

PROTECTION/CLEANING

Clean parts after each use to keep your Novex in working condition. Keep away from water and extremely hot or cold temperatures. Always turn the battery off after each session and before cleaning.

To clean the battery connection, use a q-tip slightly dipped in rubbing alcohol. Avoid soaking with excess alcohol and swab the area inside the chamber where the cartridge connects to the battery. Allow to dry completely before use.
