- Time-saving design uses a spring-loaded jaw that automatically adjusts to standard and metric fasteners 9/16 – 1-3/8 in. (15-35 mm) in diameter – no collar or wheel to adjust to the right size
- Quick and easy ratcheting action allows continuous operation without having to remove and reposition the wrench after each turn
- Compatible with most types of fasteners, including hex head, spline, star and square head nuts, bolts and screws, and even damaged fasteners.
- Precision ground serrated teeth deliver optimal gripping power
- Drop forged CR-V construction with a rust-resistant poly coating
- Ergonomic TPR handle provides comfort and control
