Before you Begin

For best results, start with clean dry hands.

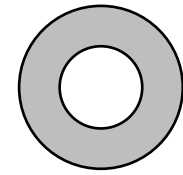

Note: If you need help, ask an adult or older friend to craft with you.

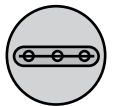

Button Maker

1st Piece

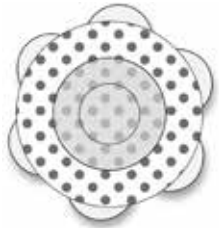

2nd Piece

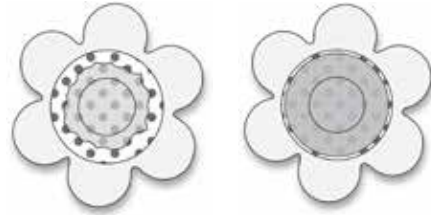

3rd Piece

Note: The pin backs are sharp. Ask an adult or older friend for help as needed.

Make

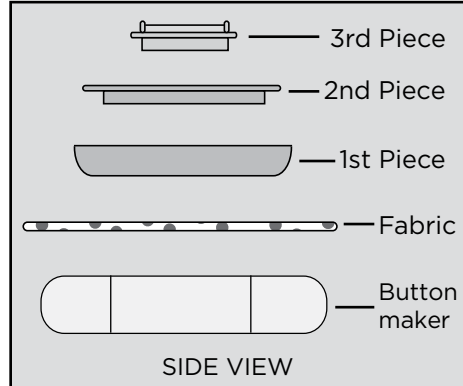

Push fabric (dark side facing down) and 1st plastic piece inside the button maker.

Tuck fabric into the back of the 1st plastic piece. Pull up on edge of button maker to help. Cover with the 2nd plastic piece.

Screw the 3rd plastic piece onto the back to finish. Remove your fabric-covered button from the maker.

Decorate

Follow the pictures on the box to make a matching set, or mix them up to create your own sweet creatures!

Use a few sticky dots to attach a large felt face to a button.

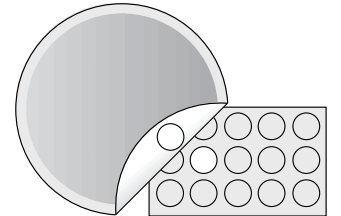

Stick on adhesive felt cheeks, ears, mouths, and noses. Add wiggly eyes to the bear, bunny, and deer.

Finish the animals with a cute flower. Use a sticky dot to stick the green leaves near the ears. Stick a felt flower on the leaves.

Pro-Tip

Sticky dots are easier to apply if you press the felt onto the sheet and then peel up.

Wear

Your buttons are now complete and ready to wear or share with a friend. As with any handcrafted item, avoid getting your buttons wet and treat them with care. Craft glue may be used to secure any loose pieces.
