

## SOLID STEP® ACCESSORIES

Solid Step RV steps by Lippert offer stability you can count on and flexibility you'll appreciate, with upgradeable accessories like the entry assist handrail, shoe storage net, and motion-activated step light.

## UPGRADE YOUR SOLID STEP

### Solid Step Entry Assist Handrail

Designed to enhance safety, this handrail offers a sturdy grip, making it easier for campers of all ages to enter and exit their RVs with confidence

#### Features

- Designed to fit all triple and quad Solid Step assemblies (not compatible with double assemblies)
- Accommodates entry door widths up to 36"
- Easy, DIY installation
- Folds into RV doorway, right with your Solid Step
- Locking pins allow for 5" adjustment
- No dismantling before or after use
- Installation hardware included

### Solid Step RV Shoe Storage

This convenient storage solution mounts just below your RV steps, keeping shoes elevated, dry, and within reach the moment you step outside your door

#### Features

- Black mesh sides and base promote airflow and drainage
- All-weather fabric for easy cleaning and long-lasting outdoor use
- Holds multiple pairs for the whole crew
- Collapses automatically when Solid Step is folded into the doorway
- Easy, DIY install with no tools required
- Includes extra clips for easy replacements
- Designed to fit all triple and quad Solid Step assemblies (not compatible with double assemblies)
- Item dimensions: 20.5"L x 12.6"W x 1.8"H

### Motion-Activated RV Step Light

Add an extra layer of safety to your campsite setup with this RV LED step light that offers an ambient nighttime glow from underneath your RV steps

#### Features

- High strength magnets easily attach to the bottom of your RV steps
- Two amber LED lights with a diffusion panel offer a soft nighttime glow
- Magnetic attachment allows easy removal for standalone flashlight use
- Includes adhesive-backed metal plate for attachment on non-magnetic surfaces
- Integrated light sensor prevents light activation during daylight hours
- Motion sensor activates lights for 15 seconds when movement is detected
- Powered by six AA batteries (not included)
- Dimensions: 6-3/4" x 1-3/4" x 1-3/4"
