

# Makerspace Carts

## Engage students in open-ended exploration with these fully loaded Makerspace solutions!

Foster creativity and innovation with engineering concepts using our new Makerspace Carts. They're an affordable, fully loaded, turnkey makerspace solution for classrooms, STEM labs, and libraries.

- **Include standards-aligned activity cards** written by teachers (NGSS-aligned)
- **Explore a variety of engineering and STEM concepts** to meet unique learning styles
- **Offer every student the opportunity** for open-ended exploration

"Hanna Shekhter, director of STEM innovation and education at Brauser Maimonides Academy, said that introducing students to engineering and building things in the classroom can help them to develop the soft skills that they'll need in their careers, regardless of what those careers might be."

"Integrating Makerspaces Throughout the Curriculum" - Joshua Bolkan, THE Journal, 9/04/18
