- Time-saving design uses a spring-loaded jaw that automatically adjusts to standard and metric fasteners 3/8 - 1 in. (9 - 25 mm) in diameter - no collar or wheel to adjust to the right size
- Quick and easy ratcheting action allows continuous operation without having to remove and reposition the wrench after each turn
- Compatible with most types of fasteners including hex head, spline, star, and square head nuts, bolts, screws, and even damaged fasteners
- Precision ground serrated teeth deliver optimal gripping power
- Drop forged chrome vanadium construction with a rust-resistant poly coating
- Ergonomic TPR handle provides comfort and control
