

QUICK-RELEASE + REUSABLE TOURNIQUET

ITEM 3138

Dynarex Quick-Release Tourniquets are premium elastic ties designed to help control hemorrhaging in emergencies. These flexible tourniquets feature quick-release buckles that are easy to fasten, tighten, and adjust with just one hand.

- Designed with tight elastic to restrict blood flow in emergencies
- Quick-release buckle allows for convenient one-handed operation and instant removal
- Clip mechanism secures elastic around arm or thigh and helps reduce pinching and jamming
- Measures 1" x 15 3/4" to easily accommodate adults and children
- Compact, lightweight band easily fits in first-aid kits for optimal portability
- Not made with natural rubber latex or DEHP
- 1 per box, 100 boxes per case
