

This diagram illustrates the structure of a cell, likely a plant cell, showing a diamond-shaped cell wall, a central nucleus, and a nucleolus. The cell is surrounded by cytoplasm and a cell membrane.

## FALCETILE

This diagram illustrates the structure of two cells, likely plant cells, showing diamond-shaped cells with central nuclei and nucleoli. The cells are surrounded by cytoplasm and a cell membrane.

This diagram illustrates the structure of two cells, likely plant cells, showing diamond-shaped cells with central nuclei and nucleoli. The cells are surrounded by cytoplasm and a cell membrane.
