

DYNAREST AIRFLOAT 100

Air Mattress with Pump

The DynaRest Airfloat 100 is a convenient, medical grade air mattress designed with user comfort in mind. The mattress is equipped with an air pump and a convenient pressure control hand dial to directly customize the firmness of the mattress. The Airfloat 100 has two settings: static mode, which is ideal for patient transfers, and alternating mode, which provides cell inflation for pressure redistribution.

- Alternating pressure mattress replacement system
- CPR valve allows for rapid deflation
- 2 modes: Alternating cycle and static
- Equipped with low pressure indicator light
- Nylon Cover
- Weight Capacity: 350 lb. (10441), 400 lb. (10448-10449)
- 1 per case
