INSTALLATION INSTRUCTIONS

Please read carefully and save these instructions as you may need them a later date.

CAUTION

WARNING: Risk of Fire. Consult a qualified electrician to ensure correct branch circuit conductor.

Turn off the main power at the circuit breaker before installing the fixture in order to prevent possible shock.

GENERAL

All electrical connections must be in accordance with local and National Electrical Code (N.E.C.) standards. If you are unfamiliar with proper electrical wiring connections obtain the services of a qualified electrician.

Remove the fixture and the mounting package from the box and make sure that no parts are missing by referencing the illustration.

ASSEMBLY AND INSTALLATION

1. Carefully unpack the fixture and lay out all parts on a clean surface..
2. Install appropriate bulbs (1, not included) into the socket (2).
3. Position the shade (3) onto the fixture body (4) and fasten it securely using the provided screws (5).
4. Assemble the fixture body (4) to the mounting post using the provided install screws (14).
5. Make all electrical connections using wire connectors (8): join white fixture wire to white supply wire (10), black fixture wire to black supply wire (12), and connect ground wire (6) to supply ground wire (7).
6. Carefully position all connected wires into the fixture body and secure the post cap (13) in place.
7. Turn on the power and test the light fixture.

INSTALLATION IS NOW COMPLETED
