- Multi-function measuring tool displays digital angle readings from 0-999.9° and features SAE and metric straight edge markings up to 7 in, each direction, or 400mm total
- Dual scale ruler provides two 7 in. rulers for measuring two lengths simultaneously, and one continuous 400mm edge
- Large, easy to read LCD screen displays precise angles to 1/10th of a degree
- Easy to read 10mm and inch increments, with every 4th 1/32nd increment numbered
- Digital angle finder measures inside/outside angles and operates as T-bevel protractor
- Automatic power function turns unit on as soon as you adjust the angle, and shuts off after 6 minutes of inactivity
- Simple two button operation with zero function, and knob to lock unit at desired angle
- Corrosion resistant, brushed stainless steel construction for rigidity and durability
- Specifications: Measuring range: 0°~999.9° (reset to 0 before each use); Accuracy: 0.1°; Tolerance: ±0.3° (per angle measurement); Folded length: 220mm/8.5 inch; Expanded length: 400mm/15.75 inch
