

TACTICAL SPECIALTY TRANSPORT BAG

HEAT BARRIER

Our 12" Transport Bag holds true to our core mission of safety in the field. It's handcrafted with 23 oz. CarbonX® heat-resistant fabric and lined with 13 oz. heavy felt to create the most effective heat barrier for hot suppressors. The Transport Bag safely holds two 6" suppressors and serves as an effective heat cover for longer suppressed rifles up to 12" long and 3" wide.

FEATURES

- 1 Designed to transport and cover hot suppressors up to 12" long and 3" wide.
- 2 Constructed with CarbonX® fabric rated to 2000° Fahrenheit.
- 3 Lined with CarbonX® fabric and heavy felt for added heat absorption.
- 4 CarbonX® cord with metal lock safely secures the bag for easy transport.

INTENDED USES

- Law Enforcement
- Military
- Shooting Enthusiasts
