Section 2 - Hazards Identification

Signal Word: WARNING Hazards and Precautions

May be harmful if swallowed. May cause respiratory irritation. Causes eye irritation. Causes mild skin irritation. Vapors may cause headache, nausea, and respiratory tract irritation. Contains Petroleum Based Products. Use only with adequate ventilation. Avoid prolonged breathing of vapor or spray mist. Keep product closed and properly stored when not in use. Avoid contact with skin. Use protective gloves, safety glasses, and protective clothing when using this product. Do not use in drinking water or food systems. Do not reuse empty container. Make sure container is sealed and secured in an upright position during transportation. Do not eat or drink while using this product and wash hand thoroughly after use.

Prevention Do not breathe dust, fume, gas, mist, vapors and/or spray. Do not handle until all safety precautions have

been read and understood.

Response IF exposed or if you feel unwell: Call a POISON CENTER or doctor/physician.

Potential Health Effects

Inhalation

Acute (Immediate) - May cause irritation.

Chronic (Delayed) - No data available

Skin

Acute (Immediate) - May cause irritation.

Chronic (Delayed) - Repeated and prolonged exposure may cause dermatitis.

Eye

Acute (Immediate) - May cause burning and redness or swelling of the eyes. May cause irritation.

Chronic (Delayed) - Repeated and prolonged exposure may cause irritation.

Ingestion

Acute (Immediate) - May be harmful or fatal if swallowed.

Chronic (Delayed) - No data available

Other Information

This product is an encapsulated mixture which reduces the likelihood of exposure to hazardous particulates. Airborne exposures to hazardous dusts or mists may be generated by spraying, sanding or grinding. During spraying or sanding the product, wear suitable respiratory equipment to protect against inhalation of mist and dust.

See Section 12 for Ecological Information.

This product is an encapsulated mixture which reduces the likelihood of exposure to hazardous particulates. Airborne exposures to hazardous dusts or mists may be generated by spraying, sanding or grinding.

See Section 11 for Toxicological Information.

Section 4 - First Aid Measures

Inhalation
 Remove to fresh air. Call a physician or poison control center. If not breathing, give artificial respiration.
 Wash the contaminated area of body with soap and fresh water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
 Eye
 Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing eye. If eye irritation persists: Get medical advice/attention.
 Call a physician or poison control center immediately. Do not give anything by mouth to an unconscious person. Do NOT induce vomiting.

See Section 2 for Potential Health Effects.

Products

Protection of Firefighters

Flash Point

- SMALL FIRES: Dry chemical, CO2, water spray or regular foam.

No data available

 Keep unauthorized personnel away. Stay upwind. Fire fighters should wear complete protective clothing including self-contained breathing apparatus.

Some of these materials may burn, but none ignite readily. May release irritating or toxic gases, fumes, or vapors.

Carbon monoxide, carbon dioxide, hydrocarbons.

- Wear positive pressure self-contained breathing apparatus (SCBA).

- 460°F(238°C)

Section 6 - Accidental Release Measures

Personal Precautions

 Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate enclosed areas

Emergency Procedures

 Stop leak if you can do it without risk. Isolate the area and contain the spilled material. Persons not wearing the appropriate PPE should be removed from the area until the spill is cleaned up

Environmental Precautions
Containment/Clean-up
Measures

Prohibited Materials

- Avoid run off to waterways and sewers. Do NOT wash away into sewer.

- Use appropriate Personal Protective Equipment (PPE) Contain and/or absorb spill with inert material (e.g. sand, vermiculite), then place in suitable container.

- Avoid contact with strong oxidizing agents and acids.

Section 7 - Handling and Storage

Handling Storage - Keep containers tightly closed when not in use. Use only with adequate ventilation.

 Keep only in the original container/package in a cool well-ventilated place. Keep away from fire. Keep container closed when not in use. Special Packaging Materials Incompatible Materials or Ignition Sources

- No data available
- Avoid contact with strong oxidizing agents and acids.

Section 8 - Exposure Controls/Personal Protection

Personal Protective Equipment Pictograms

Respiratory

When used with adequate ventilation, a respirator is not normally required. If required, use a NIOSH-approved air purifying respirator with organic vapor cartridge or supplied air respirator. This product is an encapsulated mixture which reduces the likelihood of exposure to hazardous particulates. Airborne exposures to hazardous dusts or mists may be generated by spraying, sanding or grinding. Wear ANSI approved safety glasses with side shields or safety goggles.

Eye/Face Hands Skin/Body General Industrial Hygiene

Wear chemical protective gloves made of Nitrile or Neoprene.
Wear clothing that covers the skin to prevent skin exposure.

General Industrial Hygie Considerations Engineering Measures/Controls - Avoid contact with skin, eyes or clothing. Do not eat, drink or smoke during work. Wash hands before eating.

- Adequate ventilation systems as needed to control concentrations of airborne contaminants below applicable threshold limit values.

Other Component Information

IARC has concluded that the following chemicals in this product are carcinogenic to humans (Group 1): silica, quartz. ACGIH has designated the following chemicals in this product as suspected human carcinogens (A2): silica, quartz. NTP has listed the following chemicals in this product as known human carcinogens: silica, quartz. Risk of cancer depends on duration and level of exposure to this product as a dust or aerosol mist. Airborne exposure is not expected with this product. The materials are encapsulated and would only be release if the dry material was sanded. Exposure could increase if the product is sprayed.

Other Information

This product contains petroleum asphalt. Petroleum asphalt is not listed as a carcinogen by OSHA or NTP. The National Institute of Occupational Safety and Health (NIOSH), has concluded that at higher temperatures roofing asphalt fumes are a potential occupational carcinogen. If this product is heated or comes in contact with heated material, avoid breathing fumes. This product may contain small amounts of polycyclic aromatic hydrocarbons (PAH's) which are recognized carcinogens in humans and experimental animals. Mouse skin painting studies of roofing asphalt vapor concentrate have shown evidence of tumor formation associated with localized skin irritation in recent studies. Inhalation studies of high airborne concentrations of asphalt/bitumen fumes in rats and mice produced bronchitis, pneumonitis, and lung changes such as fibrosis and cell damage.
