

Diversey™

suma® Blast

K3

Recirculating Sink Detergent

Low foaming cleaner for recirculating/power wash sinks, automatic bar glass washing sinks and vent cleaning systems.

Features & Benefits

- Low foaming surfactant based cleaner eliminating overflow
- Versatile product for use on pots, pans, cookware, dishware, flatware and utensils

Applications

- Recirculating/power sinks
- Automatic bar glass washing sinks
- Vent cleaning systems

Suma[®] Blast

Recirculating Sink Detergent

Use instructions

Recirculation/Power Wash Sinks

1. Fill each sink to the appropriate level with warm water – 110 to 120°F (43 to 49°C).
2. Preflush or prescrap ware to be cleaned to remove gross soils.
3. Start recirculation system for first compartment and wash the ware using dispensed or manually dosed proper strength solution of Suma Blast. Typical dose is 0.125-0.75 ozs./gallon (1-6 ml/liter).
4. Rinse in second compartment using potable water.
5. Sanitize in third compartment by immersion in a sanitizing solution for 60 seconds or as is required by federal, state, and local health requirements.
6. Remove the ware from sanitizing sink and allow to drain and air dry.
7. Store ware in a clean, dry, protected area.

Automatic Bar Glass Washing Sinks

1. Fill each sink to the appropriate level with warm water – 110 to 120°F (43 to 49°C).
2. If needed, preflush or prescrap glassware to remove gross soils.

3. Start recirculation or mechanical brushes for first compartment and wash glassware using dispensed or manually dosed proper strength solution of Suma Blast detergent. Typical dose is 0.2-0.4 ozs./gal (1.5-3 ml/liter).
4. Rinse in second compartment using potable water.
5. Sanitize in third compartment by immersion in a sanitizing solution for 60 seconds or as is required by federal, state, and local health requirements.
6. Remove glassware from sanitizing sink and allow to drain and air dry.
7. Store glassware in a clean, dry, protected area.

Vent Cleaning Systems

1. Injection systems will need to be adjusted according to the manufacturer's recommended procedure. The use dilution of Suma Blast detergent will be dictated by the length of the ventilator system, soil load, frequency of cleaning, and water temperature (158°F/70°C is recommended).

Storage: Do not store in food processing or food storage areas.

Technical data	Suma [®] Blast
Certifications	CFIA; Halal; Kosher
Color/Form	Amber, liquid
pH	10 (concentrate)
Scent	Surfactant
Shelf Life	2 Years

Product	Pack size	Dilution	Product code	
Suma [®] Blast	2 x 84.5 oz. / 2.5 L J-Fill [®]	1:1000	101101299	
Suma [®] Blast	4 x 1 gal. / 3.78 L Containers	1:170 - 1:1000	101101300	

Safe handling

Please make sure your employees read and understand the product label and Safety Data Sheet before using this product. The label contains directions for use; and both the label and SDS contain hazard warnings, precautionary statements and first aid procedures. SDS are available online at www.diversey.com or by calling 888.352.2249. Improper use or dilution may result in damage to surfaces and may result in health and physical hazards that match those of the concentrate. Please refer to the Diversey HazMat Library, only available through Internet Explorer, <http://naextranet.diversey.com/dot/>, for up-to-date shipping information.
