Professional Laundry Care

CLOTHESLINE FRESH

Because your
world is busy
enough.

Professional laundry care

Spartan's Clothesline Fresh laundry line is the newest technology in professional laundry care from a trusted name in the Jan/San Industry. Clothesline Fresh specifically targets soils and stains to get fabrics clean and bright, while leaving them with a fresh fragrance.

The benefits of Clothesline Fresh

Clothesline Fresh products can be used by anyone who desires quality, environmentally-preferable laundry products that excel in most types of water conditions. Clothesline Fresh products contain award-winning green surfactant technology and biodegradable water softeners not found in competitor formulations.

Contemporary cleaning technology

Spartan's Clothesline Fresh laundry line contains the latest in laundry technology, which allows for superior cleaning performance at a lower cost! This technology is also more environmentally preferable than most traditional products.

RESPONSIBLE CHEMISTRY

- No or low VOCs
- No phosphates, silicates, or harsh solvents
- No alkylphenol ethoxylates
- No nitrilotriacetic acid (NTA)
- No toxic or persistent components or by-products
- No ozone-depleting chemicals

HIGH-EFFICIENCY FORMULATIONS

Clothesline Fresh products are high-efficiency formulations and are ideal for use in conjunction with other smart environmental choices, including:

- Use high-efficiency equipment
- Automatic dispensing
- Decreased wash cycle time
- Increase use of ozone injection systems

Combine these sustainable choices with other smart laundry practices, such as:

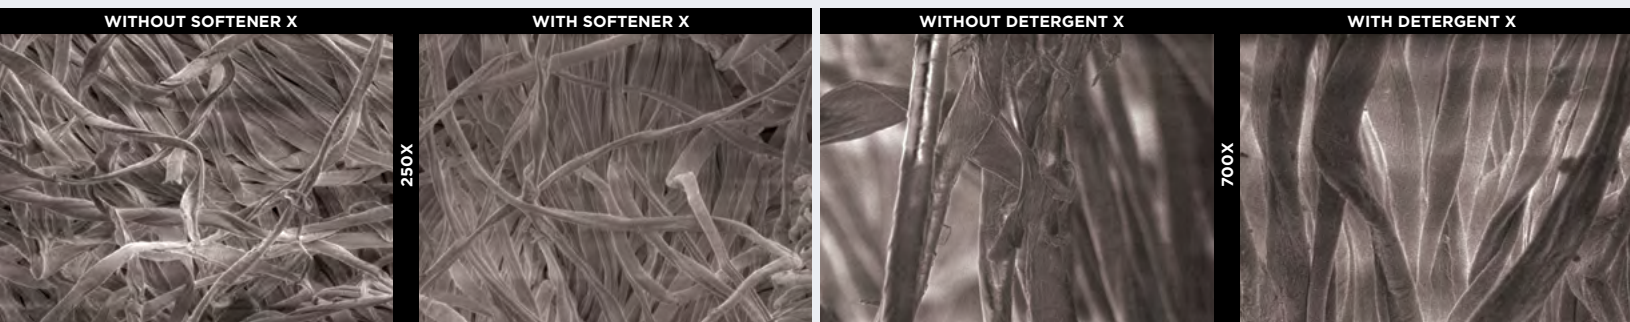

- Proper collection and handling
- Sorting
- Pre-spotting
- Tailored chemical usage

QUICKLY DISSOLVES IN
COLD AND COOL WATER
TEMPERATURES

Reduce linen replacement cost and extend linen life

Clothesline Fresh products with fabric protectant reduce fibrillation (fiber damage), pilling, and color fading, delivering results that you can see and feel. The conditioners keep fibers ordered and smooth, leaving linens looking newer longer.

Sustainable support characteristics

- Safer Choice Certified
- All surfactants used in Clothesline Fresh products are on the EPA's CleanGredients® list
- Readily-biodegradable
- Bio-based surfactants are used whenever possible and when petroleum-derived surfactants are used; they are readily-biodegradable as well
- Bio-based surfactants are derived from soy, corn, and coconut oil
- Polymeric chelant and anti-encrustation aide entirely derived from chicory root
- Natural bio-based acids as neutralization aides (citric acid)
- Readily-biodegradable bleaching aides (hydrogen peroxide)

Convenient packaging

Never run out of product unexpectedly again! With Spartan's translucent gallons, 5-gallon pails, 15 and 55-gallon drums, the amount of product remaining is easy to see. This will allow you to reorder with ease and always have the right amount of product on-hand. Some products are also available in standard gallons for convenience.

All of Spartan's Clothesline Fresh products are packaged in 5-gallon pails with an innovative closure that allows for the insertion of dispenser tubing right into the pail. This is safer, less time-consuming, and reduces the chance of product contamination. Spartan also offers identification tags to place on dispenser lines for each Clothesline Fresh product for easy identification.

Spartan offers many dispensing options to keep the laundry area clean and safe for employees. This includes tubing that goes from the product to the dispenser or machine, so product is never exposed.

24

COLOR AND NUMBER SYSTEM

Each Clothesline Fresh product has a color and number assigned to it. All product information and literature, plus each product label, carton, secondary label, and line tag reflects this color and number, making training easier and faster.

Detergents

Clothesline Fresh® BLD 2

#7002

Clothesline Fresh BLD combines a laundry builder with a detergent to increase pH and remove soil all in one step! The elevated pH of Clothesline Fresh BLD speeds up soil removal during washing by allowing the individual fibers of a fabric to open up which expedites entrapped soil release. Clothesline Fresh BLD contains water softening and soil anti-redeposition agents to aid in the washing process.

pH (Concentrate): 13.5 – 14.0

Available Sizes (in Gallons): 1, 5, 15, 55

Clothesline Fresh® Laundry Detergent 3

#7003

Clothesline Fresh Laundry Detergent can be used with a complete laundry program or on its own. This product was formulated to contain new advances in chemical surfactants and cleaning technology to provide a deep cleaning formula. Clothesline Fresh Laundry Detergent quickly suspends tough oily and particulate soils to prevent them from redepositing back onto the fabric.

pH (Concentrate): 7.0 – 9.0

Available Sizes (in Gallons): 1, 5, 15, 55

Clothesline Fresh® Xtreme Detergent 10

#7010

Clothesline Fresh Xtreme Detergent is specifically formulated to tackle extreme hard water conditions and extreme soil load levels. The formula is extremely concentrated with water softening and chelating ability, and over 80% more alkalinity when compared to original Clothesline Fresh BLD.

pH (Concentrate): 14.0

Available Sizes (in Gallons): 5, 15, 55

Clothesline Fresh® Enzyme Laundry Detergent 11

#7011

Clothesline Fresh Enzyme Laundry Detergent is fortified with enzymes and optical brighteners to quickly digest and wash away stubborn stains and soils, leaving the fabric clean and bright. The concentrated blend of enzymes found in Enzyme Laundry Detergent gives you the ability to wash at lower water temperatures and with fewer chemicals while showing an increase in stain removal, whiteness, and soil anti-redeposition.

pH (Concentrate): 7.5 – 8.5

Available Sizes (in Gallons): 1, 5, 15, 55

Detergents (continued)

Clothesline Fresh® No Dye-No Fragrance BLD 12

#7012

Clothesline Fresh No Dye - No Fragrance BLD is enhanced by patented polymeric technology that quickly suspends tough oily soils and particulates to prevent them from redepositing back onto the fabric. The formula does not contain phosphates or nonylphenol ethoxylates and with biodegradable water softeners and biodegradable surfactants Clothesline Fresh No Dye - No Fragrance BLD is more environmentally friendly.

pH (Concentrate): 13.5 – 14.0

Available Sizes (in Gallons): 5, 15, 55

Clothesline Fresh® No Dye-No Fragrance Laundry Detergent 13

#7013

Clothesline Fresh No Dye-No Fragrance Laundry Detergent is enhanced by patented polymeric technology that quickly suspends tough oily soils and particulates to prevent them from redepositing back onto the fabric. The formula does not contain phosphates or nonylphenol ethoxylates and with biodegradable water softeners and biodegradable surfactants Clothesline Fresh No Dye-No Fragrance Laundry Detergent is more environmentally friendly.

pH (Concentrate): 7.0 – 9.0

Available Sizes (in Gallons): 1, 5, 15, 55

Clothesline Fresh® Detergent EP 18

#7018

An environmentally preferable detergent option that will help you meet your sustainability goals. Clothesline Fresh Detergent EP was formulated in partnership with the Environmental Protection Agency's Design for the Environment Program. Clothesline Fresh Detergent EP does not contain phosphates, silicates, solvents or nonylphenol ethoxylates, all of which can have a negative environmental impact.

pH (Concentrate): 7.0 – 9.0

Available Sizes (in Gallons): 1, 5, 15, 55

Clothesline Fresh® Oxygen Detergent EP 21

#7021

Clothesline Fresh Oxygen Detergent EP is a detergent and color safe bleach in one that naturally brightens colors and whitens whites in the wash! Formulated in partnership with the Environmental Protection Agency's Safer Choice Program, Clothesline Fresh Oxygen Detergent EP features the power of active oxygen, an environmentally preferred and effective oxidizing agent.

pH (Concentrate): 3.5 – 4.5

Available Sizes (in Gallons): 1, 5, 15, 55

Detergents (continued)

Clothesline Fresh® Detergent SE 23

#7023

Clothesline Fresh Detergent SE is a heavy-duty, solvent enhanced, liquid laundry detergent specially formulated for use in commercial, healthcare, and on-premise laundries. Use in conjunction with Clothesline Fresh Liquid Alkali to boost its performance for superior soil removal of a wide range of soils on any type of fabric.

pH (Concentrate): 10.5 – 11.5

Available Sizes (in Gallons): 1, 5, 15, 55

Clothesline Fresh® Detergent X 24

#7024

Clothesline Fresh Detergent X provides excellent cleaning and stain removal. Featuring the Xcelenté® fragrance, Detergent X imbues a long-lasting fresh lavender scent in laundry linens. Detergent X is charged with optical brightener and fabric protectant technology to prevent fading, graying, and linen degradation in the wash cycle. The highly concentrated formula offers an economical solution for any professional laundry program.

pH (Concentrate): 6.5 – 8.0

Available Sizes (in Gallons): 1, 5, 15, 55

Softeners

Clothesline Fresh® Fabric Softener 6

#7006

Clothesline Fresh Fabric Softener is a liquid fabric softener designed to soften and eliminate static cling from laundered fabrics and to reduce the rigidity of fabrics which reduces fiber damage and can prolong fabric life. The Softener contains anti-static agents which help to prevent static charge build-up allowing washed fabrics to have a smooth, fluffy feel right out of the dryer smelling clean and fresh.

pH (Concentrate): 5.5 – 6.5

Available Sizes (in Gallons): 1, 5, 15, 55

Clothesline Fresh® Fabric Softener/Sanitizer 7

#7007

Clothesline Fresh Fabric Softener/Sanitizer is a liquid fabric softener designed to soften and eliminate static cling from laundered fabrics while sanitizing! Clothesline Fresh Fabric Softener/Sanitizer reduces the rigidity of fabrics which reduces fiber damage and can prolong fabric life as well as aid in the ironing process by reducing wrinkles.

pH (Concentrate): 4.0 – 5.0

Available Sizes (in Gallons): 1, 5, 15, 55

Softeners (continued)

Clothesline Fresh® Sour/Softener 9

#7009

Clothesline Fresh Sour/Softener is a liquid laundry sour designed to neutralize the pH of the finished wash to a comfortable level which will not irritate skin. Maintaining proper fiber pH is important for prolonging the life cycle of the washed fabric. Clothesline Fresh Sour/Softener also softens and eliminates static cling from laundered fabrics leaving laundered fabrics smelling clean and fresh!

pH (Concentrate): 2.5 – 3.3

Available Sizes (in Gallons): 1, 5, 15, 55

Clothesline Fresh® Softener EP 19

#7019

Furthering your sustainable laundry efforts with a product formulated in partnership with the Environmental Protection Agency's Design for the Environment Program. Clothesline Fresh Softener EP is a readily biodegradable, liquid fabric softener that teams a Fresh April Air scent with superior softness.

pH (Concentrate): 4.5 – 5.5

Available Sizes (in Gallons): 5, 15, 55

Clothesline Fresh® Softener X 25

#7025

Clothesline Fresh Softener X softens and eliminates static cling from laundered fabrics. Featuring a fragrance inspired by Xcelenté®, Softener X imbues a long-lasting fresh lavender scent in laundry linens. Softener X is fortified with a fabric protectant to reduce fiber damage, prevent color fade, prolong linen life, and increase softness. The highly-concentrated formula offers an economical solution for any professional laundry program.

pH (Concentrate): 5.0 – 6.5

Available Sizes (in Gallons): 1, 5, 15, 55

Destainers

Clothesline Fresh® Chlorine Bleach 4

#7004

Clothesline Fresh Chlorine Bleach is a chlorine-based bleach that enhances the performance of Clothesline Fresh Laundry Detergents and aids in the removal of tough stains. Formulated with the power of sodium hypochlorite, an inorganic chlorine source, which brightens and whitens fabrics. Clothesline Fresh Chlorine Bleach is used to eliminate stains the detergent operation was unable to remove.

pH (Concentrate): 12.5 – 13.5

Available Sizes (in Gallons): 1, 5, 15, 55

Destainers (continued)

Clothesline Fresh® Color Safe Bleach 5

#7005

Clothesline Fresh Color Safe Bleach is a non-chlorinated, oxygen-based bleach that enhances the performance of Clothesline Fresh Laundry Detergents. Clothesline Fresh Color Safe Bleach is safe to use on most all machine-washable fabrics and colors, yet powerful enough to remove even the toughest stains.

pH (Concentrate): 4.0 – 6.0

Available Sizes (in Gallons): 1, 5, 15, 55

Clothesline Fresh® Xtreme Oxygen Bleach 15

#7015

Clothesline Fresh Xtreme Oxygen Bleach is a 25% hydrogen peroxide-based active oxygen bleach that will get your whites white (like chlorine bleach) and keep your colors bright (which chlorine can't do). Overuse of Clothesline Fresh Xtreme Oxygen Bleach will not lead to unsightly yellowing like Chlorine Bleach will tend to do and will also biodegrade into water and oxygen after use in the wash cycle.

pH (Concentrate): 2.5 – 3.0

Available Sizes (in Gallons): 5, 15, 55

Clothesline Fresh® Oxygen Bleach EP 20

#7020

Clothesline Fresh Oxygen Bleach EP is an environmentally preferable oxygen-based bleach that is safe to use on all wash loads. Formulated in partnership with the Environmental Protection Agency's Safer Choice Program, Clothesline Fresh Oxygen Bleach EP is formulated with the power of active oxygen, an effective oxidizing agent, for superior brightening of white and colored fabrics.

pH (Concentrate): 4.0 – 5.0

Available Sizes (in Gallons): 5, 15, 55

Additives

Clothesline Fresh® Laundry Break 1

#7001

Clothesline Fresh Laundry Break is a concentrated laundry builder that prepares the fabric for the washing process by raising the pH of the wash water, which accelerates the washing process by allowing individual fibers of a fabric to open up and begin releasing entrapped soil particles. Clothesline Fresh Laundry Break contains biodegradable water softening agents to boost detergent performance.

pH (Concentrate): 14.0

Available Sizes (in Gallons): 1, 5, 15, 55

Additives (continued)

Clothesline Fresh® Laundry Sour 8

#7008

Clothesline Fresh Laundry Sour is a liquid laundry sour designed to neutralize the pH of the finished wash to a level which will not irritate skin. Maintaining proper fiber pH is important, not only for comfort, but will also prolong the life cycle of the washed fabric. Removal of excess alkalinity helps to minimize the graying or yellowing of fabric as well as to reduce fiber stress which can lead to potential fiber damage.

pH (Concentrate): 1.8 – 2.5

Available Sizes (in Gallons): 1, 5, 15, 55

Clothesline Fresh® Anti-Chlor 14

#7014

Clothesline Fresh Anti-Chlor is an additive for eliminating chlorine carry-over in commercial laundry applications, which also reduces fabric damage by chemically neutralizing the residual chlorine bleach in the washing process. Certain types of stains, especially medicinal stains (i.e. iodine, betadine) can only be removed with a reducing bleach. These types of stains are unaffected by chlorine bleach.

pH (Concentrate): 8.5 – 9.5

Available Sizes (in Gallons): 5, 15, 55

Clothesline Fresh® Liquid Alkali 16

#7016

Clothesline Fresh Liquid Alkali is an concentrated laundry builder that prepares the fabric for the washing process by raising the pH of the wash water, which accelerates the washing process and allows individual fibers of a fabric to open up and begin releasing entrapped soil particles. This product contains biodegradable water softening agents to aid in the washing process and boost detergent performance.

pH (Concentrate): 14.0

Available Sizes (in Gallons): 5, 15, 55

Clothesline Fresh® Xtreme Laundry Sour 17

#7017

Clothesline Fresh Xtreme Laundry Sour is a concentrated liquid laundry sour designed to neutralize the pH of the finished wash to a comfortable level which will not irritate skin. Clothesline Fresh Xtreme Laundry Sour will also help to remove iron stains from previously stained linen and is also excellent at removing suntan lotion stains.

pH (Concentrate): < 1.0

Available Sizes (in Gallons): 5, 15, 55

Additives (continued)

Clothesline Fresh® Liquid Laundry Starch 22

#7022

Clothesline Fresh Liquid Laundry Starch is a blend of natural and synthetic starches that provide a beautiful hand and body to a variety of fabrics including blends and spun polyester. Clothesline Fresh Liquid Laundry Starch is an economical blend of sizing and natural starch polymers designed to provide excellent stiffness and better wash out in a wide range of temperatures.

pH (Concentrate): 4.5 – 5.0

Available Sizes (in Gallons): 5, 15

Clothesline Fresh® Laundry Sanitizer 26

#7026

Clothesline Fresh Laundry Sanitizer 26 is an antimicrobial laundry additive designed for use in commercial, institutional, and industrial laundry operations. Perfect for table linens, aprons, towels, coats, and diapers, Clothesline Fresh Laundry Sanitizer 26 works as a laundry pre-soak sanitizer against bacteria, reducing bacterial count by 99.9%. Clothesline Fresh Laundry Sanitizer 26 also helps reduce cross-contamination in treated laundry and eliminates bad odor found on wet and soiled laundry.

pH (Concentrate): 6.0 – 8.0

Available Sizes (in Gallons): 1, 5, 15, 55

Spotters

Clothesline Fresh® All Purpose Spotter S1

Bulk #7061
Quart #7051

Clothesline Fresh All Purpose Spotter treats a broad spectrum of laundry stains including protein, juices, oils, and many others. This spotter can be used as a spotter, pre-soak, or pre-spotter to remove even the toughest stains. Use in conjunction with the complete Clothesline Fresh laundry program to ensure stain removal.

pH (Concentrate): 11.5 – 12.5

Dilution: Ready-to-use

Available Sizes (in Gallons): 1, and 1-quart

Clothesline Fresh® Alkaline Spotter S2

Bulk #7062
Quart #7052

Clothesline Fresh Alkaline Spotter treats food-based oil and grease stains on fabrics. This spotter can be used as a spotter, pre-soak, or pre-spotter to remove even the toughest stains. Use in conjunction with the complete Clothesline Fresh laundry program to ensure stain removal.

pH (Concentrate): 12.0 – 13.0

Dilution: Ready-to-use

Available Sizes (in Gallons): 1, and 1-quart

Spotters (continued)

Clothesline Fresh® Rust and Iron Remover S3

Bulk #7063
Quart #7053

Clothesline Fresh Rust and Iron Remover removes rust and iron stains from fabrics. Use Clothesline Fresh Rust and Iron Remover as a pre-spotter or spotter. Use in conjunction with the complete Clothesline Fresh laundry program to ensure stain removal.

pH (Concentrate): 3.7 – 4.3

Dilution: Ready-to-use

Available Sizes (in Gallons): 1, and 1-quart

Clothesline Fresh® Enzyme Spotter S4

Bulk #7064
Quart #7054

Clothesline Fresh Enzyme Spotter is a concentrated laundry spotter and wash additive. The unique enzymatic activity of Clothesline Fresh Enzyme Spotter allows for quick penetration, digestion, and removal of the toughest stains and soils. The proprietary blend of enzymes found in Clothesline Fresh Enzyme Spotter allows for the quick removal of many types of stains particularly protein and starch.

pH (Concentrate): 7.5 – 8.5

Dilution: Ready-to-use

Available Sizes (in Gallons): 1, and 1-quart

Clothesline Fresh® Iodine & Betadine Remover S5

#7055

Clothesline Fresh Iodine & Betadine Remover removes iodine, betadine, and chlorine stains from fabrics. Clothesline Fresh Iodine & Betadine Remover will also remove these stains on carpeting! This stain removing power on fabrics and carpet makes Clothesline Fresh Iodine & Betadine Remover ideal for hospitals, nursing homes, and other health care facilities.

pH (Concentrate): 9.0 – 10.0

Dilution: Ready-to-use

Available Sizes: 1-quart

Reclaim

Clothesline Fresh® Chlorinated Reclaim Pack R1

#7071

Clothesline Fresh Chlorinated Reclaim Packs remove tough, stubborn stains, helping you reclaim rejected linens, prolonging linen life and reducing your linen replacement costs. The alkaline laundry stain fighter packs a high concentration of stain removing chlorine bleach in a unique, water-soluble packet. Each Clothesline Fresh Reclaim Pack is also individually packaged and labeled to offer the safest solution for employee handling and accurate dosing.

pH (1% in water): 10.5 – 11.5

Available Sizes: 500 grams (10 per case)

Clothesline Fresh® Oxygenated Reclaim Pack R2

#7072

Clothesline Fresh Oxygenated Reclaim Packs remove tough, stubborn stains, helping you reclaim rejected linens, prolonging linen life and reducing your linen replacement costs. The color safe laundry stain fighter packs a high concentration of stain removing peroxide in a unique, water-soluble packet. Each Clothesline Fresh Reclaim Pack is also individually packaged and labeled to offer the safest solution for employee handling and accurate dosing.

pH (1% in water): 10.5 – 11.5

Available Sizes: 500 grams (10 per case)

Clothesline Fresh® Rust & Iron Remover Reclaim Pack R3

#7073

Clothesline Fresh Rust & Iron Reclaim Packs remove tough, stubborn stains, helping you reclaim rejected linens, prolonging linen life and reducing your linen replacement costs. The color safe laundry stain fighter is packed in a unique, water-soluble packet. Each Clothesline Fresh Reclaim Pack is also individually packaged and labeled to offer the safest solution for employee handling and accurate dosing.

pH (1% in water): 1.0 – 2.0

Available Sizes: 300 grams (15 per case)

Homestyle

Laundry Push Dispenser

The Laundry Push Dispenser offers an affordable and convenient manual dispenser option for top load, on premise, laundry operations. Simply mount unit on wall adjacent to machine and the dispenser will consistently and accurately dispense 1 oz. of product per push. (#962600)

MiniWash

MiniWash is a series of compact dispensing systems designed for use with top-load or OPL washing machines. The dispensers feature timed mode programming for laundry chemicals. Installation is simple and easy using the supplied wall-mounting brackets. (1-pump #99167, 2-pump #99168, 3-pump #99169)

On-Premise Laundry

Eclipse Front-Load Laundry Dispenser

The Eclipse Front-Load Laundry Dispensers system is a compact, easy to use dispenser for on premise laundry applications. Including a washer mounted controller, machine Interface, and a wall mounted pump module, the automatic management system can handle up to 4 laundry chemicals and up to 8 different formulas. (3-pump #963100, 4-pump #960300, 5-pump #960400)

Total Eclipse Front-Load Laundry Dispenser (with reporting)

The Total Eclipse Front Load Laundry Dispenser system is a compact, easy-to-use dispenser for on-premise laundry applications. Including a washer-mounted controller, machine interface, and wall mounted pump module, the automatic management system can handle up to 3 laundry chemicals and up to 20 different formulas. (3-pump #963200, 4-pump #963300, 5-pump #963400)

Laundry Flush Manifold

Five port flush manifold for use with front load laundry systems. Compatible with the Total Eclipse and LavoWash dispensers. (#99171)

Spartan Connected Dosing System

Spartan's centralized dosing systems are custom-configured to work with industrial laundry equipment. Customers can save time and hassle with a single control point for the entire plant. The systems are connected via Wi-Fi or cellular, so real-time data is provided anytime. (#99145)

Flow Meter

In-line flow meter for use with Clothesline Fresh laundry systems. Monitors chemical dispensed to the washer to ensure accurate wash programs. (#99172)

Accessories

Laundry Install Kit

Includes Total Eclipse Dispenser (5-pump), 3/8" laundry tubing (2), 5 gallon insert with 1/4" barb (5), 1/4" T connector (25), 70mm wrench, Clothesline Fresh® line tag set, laundry washing procedures chart, laundry care program chart, and quart/SDS wall rack. (#99129)

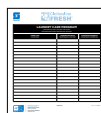

Laundry Care Test Kit

The Laundry Care Test Kit consolidates all the potential chemical titration tests required for laundry care operations in one convenient package. Complete with step-by-step instructions for performing each test, the test kit covers alkaline, acid, chlorine, QAC titrations, as well as water hardness tests, so that whatever aspect of the laundry process you are evaluating, we have you covered. (#992300)

Laundry & Warewash Formula Titration Test Kit

Basic kit, includes most common tests. (#99023)

Laundry Care Program Chart

This 10" x 15" laminated chart allows the ability to write in type of textiles being laundered and which washer and dispenser settings should be used with the particular textile. (#980600)

Laundry Line Tags

Attach to dispenser tubing to quickly identify product when performing switch-outs. Helps to reduce mistakes and product mix-up. (#962300)

Laundry Washing Procedures Chart

This 15" x 20" laminated chart reminds employees of the basics of the laundry process. This chart also includes an at-a-glance list of Spartan's products for quick reference. (#980500)

Machine Loading Procedures Chart

This 11" x 17" laminated chart outlines the proper procedures for loading professional washer and dryer equipment, complete with load capacity guidance for a variety of textiles from bedding and towels to dining linens. (#914300)

Spotter Solution Guide

This 8.5" x 11" laminated chart identifies the correct Clothesline Fresh laundry spotter product for nearly 50 of the most common laundry stains. (#971900)
