<b>W84011</b>	12	72	039564147791	Carded
---------------	----	----	--------------	--------

- Removes 7/8 in. (22mm) Oxygen Sensors that cannot be accessed with standard O2 sockets
- Thin wall construction avoids close contact with the heat shields and other obstructions
- Cutaway slot to accommodate the wire harness connected to the sensor
- Use to remove the sensor on Audi, BMW, Mercedes, Mini, Porsche, VW, and other makes with clearance issues
- Heavy duty alloy steel construction with a black oxide finish
- Use 3/8 in. drive ratchet or 1 in. wrench
- Overall length 3-5/16 in. with a 3/32 in. wall thickness
