

HITCH-MOUNTED TRUTRACK™ 2P WD HITCHES

The TruTrack 2P features a unique spring bar attachment system. Like all weight distribution hitches, it uses a pair of spring bars to leverage the trailer tongue weight and spread it across all axles of the vehicle-trailer combination.

INCREASED SWAY CONTROL

Friction resistance

Two points of sway control use friction to distribute weight evenly, keeping trailer aligned

Easy setup

Head tilt adjustment feature simplifies setup and eliminates the need for washers

Increased control

Adjustable brackets provide fixed support unlike spring bar chain models

TRUTRACK™ 2P TRUNNION HITCH

TRUTRACK™ 2P ROUND BAR HITCH

Features

- Trunnion hitch - up to 12,000 lbs. GTW / 1,200 lbs. TW
- Round bar hitch - up to 10,000 lbs. GTW / 1,000 lbs. TW
- Two distinct points of sway control work together to keep trailer aligned
- Integrated sway control reduces sway and levels the vehicle and trailer
- Brackets use friction to resist lateral movement and distribute weight evenly
- Head tilt adjustment feature simplifies setup and eliminates need for washers
- 7-hole, 2" shank can be flipped for maximum adjustability
- Equipped with durable, forged steel spring bars for reliable strength
- Heavy-duty, fabricated head can be used for precise leveling
- Adjustable brackets provide fixed support unlike spring bar chain models
- Durable carbide powder coat finish
- Limited lifetime warranty (one-year finish, one-year parts)

Part #	GTW	Bar Style	Bar Length	Description
17599	5,000 - 8,000 lbs.	Round	35"	Hitch head, shank, pre-torqued 2-5/16" trailer ball (40006), spring bars and lift brackets
17601	8,000 to 10,000 lbs	Round	35"	Hitch head, shank, pre-torqued 2-5/16" trailer ball (40006), spring bars and lift brackets
17355	8,000 to 12,000 lbs	Trunnion	35-9/16"	Hitch head, shank, spring bars with HD support brackets (17517), pre-torqued 2-5/16" trailer ball
