- This 3-head suction cup allows you to repair car dents where the panel has not been creased
- Use for lifting, pulling, and handling materials such as glass, mirrors, metal sheets, etc
- Quick release and locking levers make it convenient to lock the suction in place and provide stability
- The non-slip handles are made of thickened ABS plastic, and resist being deformed or broken
- Made with durable rubber suction pads and a heavy-duty plastic handle
- Each of the suction plates is 11.68 cm. (4.6 in.) in diameter and the pad thickness is 7 mm. (0.28 in.)
- The maximum lifting Load capacity is 120 kg. (264 lbs.)
