

615

Provides power protection for all small electronics and for home/office computers.

KEY FEATURES:

- 6 Surge Protected Outlets
- 900 Joules
- MOV Surge Outlets
- EMI/RFI Noise Filters
- Lifetime Warranty

The CyberPower 615 offers 900 Joules of protection and metal oxide varistor (MOV) technology power protection for small electronics. The 615 guards against lightning induced spikes/surges and utility company line disturbances ensuring your equipment is protected. This surge suppressor is ideal for TVs, stereos, CD players, and other small electronic devices. The suppressor is also equipped with electromagnetic and radio frequency interference (EMI/RFI) filtering that blocks unwanted line noise from all connected electronics.

FEATURES & BENEFITS:

Transformer-spaced Outlets: Widely-spaced outlets allow you to conveniently add large transformer-based plugs without compromising the utility of other outlets.

Keyhole Mounting Slots: Convenient mounting slots are located on the back on the surge suppressor.

MOV (Metal Oxide Varistor): MOV technology allows normal current to pass through the device, while diverting any surge/spikes through the ground circuit. This safely protects all connected electronics along with the surge protector itself.

EMI/RFI Shielding: Provides shielding against electromagnetic interference & radio frequency signals. Most commonly, this is used to prevent line noise or "humming" that occurs over telephone lines or stereo electronics.

Sturdy Case: Constructed of impact-resistant material for maximum durability.

Technical Support: CyberPower assists users with any product, installation, or warranty concerns—free of charge.

ISO & Safety Certifications: All CyberPower manufacturing facilities are state-of-the-art and ISO-9001 Quality Tested. Our products are certified by the FCC, cUL, and UL.

615 SPECIFICATIONS

INPUT	
Voltage	120V
Plug Type	NEMA 5-15P
Circuit Breaker	15 Amp
Plug Style	Right angle
Cord Length	4'
OUTPUT	
Outlets - Total	6
Outlet Type	NEMA 5-15R
Outlets - Widely Spaced	2
SURGE PROTECTION & FILTERING	
Surge Suppression	900 Joules
Maximum Surge Current	45,000 Amps
Maximum Surge Current H-N	15,000 Amps
Maximum Surge Current H-G	15,000 Amps
Maximum Surge Current N-G	15,000 Amps
Maximum Surge Voltage	6,000 Volts
Clamping Voltage	400V (H-N, NG) / 500V (H-G)
Response Time	< 1 nanosecond
EMI/RFI Filtration	150KHz to 100MHz
Attenuation	Up to 58dB
INDICATORS	
Indicators	Red surge protection
PHYSICAL	
Keyhole Mounting Slots	Yes
CERTIFICATIONS	
Certifications	UL1449 / CSA
ROHS	
ROHS	ROHS Compliant
WARRANTY	
Product Warranty	Lifetime
Connected Equipment Guarantee	Lifetime
CEG Amount	\$50,000
