

Southwire™

LED CART LIGHT

Southwire's LED Cart Lights features an all steel mobile cart with a mast that extends from 5.5 to 10 or 12 feet. A 600lb self-braking winch helps you get the height just where you need it (7322 only). The LED fixtures can be adjusted to different horizontal angles. At 22,000 lumens per head, sufficient light won't be an issue with this cart by your side. Wire cages are included for additional lens protection. The cart base can accept portable generators for remote applications.
