

SURESHADE® BIMINI SPORT ARMS

BY LIPPERT COMPONENTS®

TRAVEL AT
HIGHER SPEEDS
WITHOUT
RETRACTING
YOUR BIMINI

SPEED AND SHADE WITHOUT SACRIFICE

Sacrificing shade while enjoying a day on the water in your pontoon is now a thing of the past! With our Sport Arms made for the SureShade® Power Bimini (formerly PWR-ARM), you can take your boat to higher speeds while securing the bimini without the hassle of retracting it – allowing you to stay cool, safe, and worry-free while you cruise.

With the SureShade Bimini Sport Arms, there's no longer a need to sacrifice shade while you accelerate in your pontoon – stay protected and enjoy the ride as you take on each journey on the water.

SPORT ARMS™

SHADED ADVENTURES

You no longer have to negotiate between having shade and traveling at higher speeds* on the water. Enjoy both with peace of mind knowing that your SureShade Power Bimini (PWR-ARM) is protected.

ADAPTABLE

Two standard sizes are available: 36" and 32" with an adjustable height range of 26" (95cm) to 42" (105cm).

Some Biminis' configurations may require the tubes to be modified for length by cutting to a specific size.

EASY INSTALLATION & MAINTENANCE

The self-drilling, self-tapping installation method makes setup quick and simple. Quick detach hardware provides a convenient solution for putting the top down when it is not in use. All required mounting hardware is also included.

BUILT STRONG

The Sport Arms are constructed with durable anodized aluminum for added strength and resilience, protecting your bimini from damage as you use your pontoon in high gear.

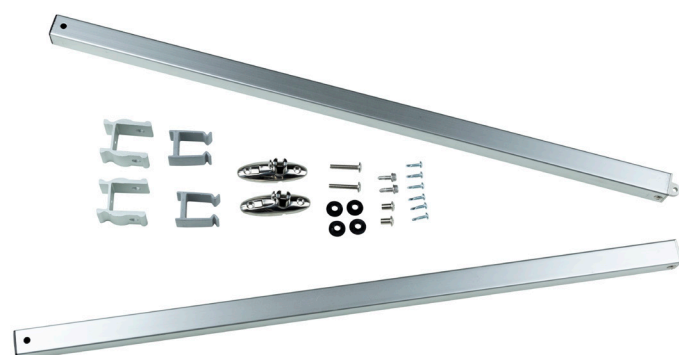

MADE FOR POWER

Enjoy the thrill of pulling tubes, skis, and more without having to take your top down. Stay cool and covered while fully securing your bimini on your voyage.

Includes all required mounting hardware: two rear support poles, two flip-locks and four screws

CLEAR ANODIZE 32" KIT
