

The diagram illustrates the mechanical assembly and its dimensions. The shaft is 100 units long, the gear is 50 units wide, the pulley is 75 units wide, the belt is 150 units long, and the vertical component is 120 units high.

QUESTION

The diagram shows a person standing next to a large cylindrical object, possibly a tank or a barrel. The person is holding a tool or a device. The cylindrical object has a label on it.

The label on the cylindrical object contains the following information:

Item	Value
Weight	100
Volume	50
Material	Steel

The person is holding a tool or a device that is used to measure or inspect the cylindrical object.
