Bio-Floor® Plus

D3.7

No-Rinse Probiotic Floor Cleaner and Deodorizer

A bacteria-enhanced, premium-liquid, no-rinse floor cleaner with solvents. Provides a residual cleaning effect on quarry tile floors that can last for up to several days. Great for removing the fats, grease and oils that can build up in the grout and tile pores of quarry tile floors, causing slip-fall accidents.

Features & Benefits

- Bacteria fortified, surfactant and solvent based no rinse liquid floor cleaner and deodorizer
- Beneficial, self-replicating bacteria continue to clean after mopping is complete
- Cleans soils trapped in tile pores and grout
- Removes fat, grease and oil build-ups and eliminates odors
- No rinse floor cleaner
- Concentrated formulation provides excellent cost in use

Applications

- Apply with mop or spray using innovative RTD® spray method
- Safe for use on quarry tile, ceramic tile and vinyl

Suma[®] Bio-Floor[®] Plus

No-Rinse Probiotic Floor Cleaner and Deodorizer

Use instructions

- Dispense proper strength solution of product and warm or hot water in a mop bucket. Sweep up and remove solid waste from floor before applying.
- Post “Wet Floor” signs around area to be cleaned and use a clean mop to apply the cleaning solution generously to the floor, overlapping mop strokes. For best results, scrub the floor with a brush, especially if the floor has grout.
- Repeat if necessary on heavily soiled areas. Pick up soil and excess solution with a tightly wrung out mop, wringing it out frequently, or squeegee to floor drain.
- Dry mop or squeegee floor dry or allow floor to air dry before reuse. Once dry, remove “Wet Floor” signs. A potable water rinse is only required for those surfaces that may contact edible product. Pour unused Bio-Floor Cleaner from mop bucket into kitchen floor drain for daily maintenance.

NOTE: Floors will be slippery when wet or contaminated with foreign materials. Promptly clean up spills and foreign materials. See container for lot number.

Storage: Do not store in food processing or food storage areas. Shake well before using if product has settled.

For Food Plant Use: Not for use on food contact surfaces. Avoid contamination of food during use or storage.
