

**CLAX<sup>®</sup> System-1 Sour**

**60D2**

## Laundry Neutralizer

A super-concentrated, laundry neutralizer which provides proper pH control on all finished fabrics. It is designed for use in commercial and on-premise institutional laundries. Clax<sup>®</sup> System-1 Sour is formulated for use in all water conditions. The unique blend of neutralizing acids and iron inhibitors in the formula ensure the brightest, whitest results wash after wash, even in problem water areas.

### Features & Benefits

- Contains iron inhibitors to prevent yellowing of linen
- Dedicated souring agent to ensure accurate pH of finished linen
- Extends linen life
- Convenient liquid pack size

### Applications

- Formulated for use in commercial and on-premise laundry
- Can be used in all commercial stainless steel washing machines
- Should be applied in the last rinse to neutralize residual alkalinity

# Clax<sup>®</sup> System-1 Sour

Laundry Neutralizer

## Use Instructions

Concentration varies due to environmental conditions and load size. Your sanitation specialist will adjust properly to meet your needs.

1. Pre-sort laundry prior to wash.
2. Pre-soak and/or pre-spot laundry when necessary.
3. Place proper amount of soiled fabric into laundry machine.
4. This product is designed to be dispensed directly to the laundry machine by a Diversey dispenser and should not be diluted manually.

Your Diversey technician will adjust product concentrations based on results.

**Commercial Machines:** Dispense automatically with Diversey dispenser.

**Warning:** Do not mix with incompatible chemicals, such as acids or ammonia.

**Food Plant Use:** Thoroughly rinse all laundered fabrics used in food plants with potable water before re-use. Avoid contamination of food during use or storage.
