

BYRONOMER 247

BYRONOMER 247 is a high performance, low viscosity, clear, colorless liquid. It is a polyether ether ketone (PEEK) resin, which is a thermoplastic polymer. It is used in a wide range of applications, including automotive, aerospace, and industrial. It is known for its excellent mechanical properties, including high strength, stiffness, and impact resistance. It is also resistant to a wide range of chemicals and solvents, making it a popular choice for many industrial applications.

Property	Value
Color	Clear, colorless
Viscosity	Low
Strength	High
Stiffness	High
Impact Resistance	High
Chemical Resistance	Excellent
Solvent Resistance	Excellent
Temperature Range	Wide
Processing	Injection molding, extrusion, etc.
Applications	Automotive, aerospace, industrial, etc.
