ASSEMBLY&INSTALLATION

Please read carefully and save these instructions, as you may need them a later date.

CAUTION

Turn off the main power at the circuit breaker before installing the fixture, in order to prevent possible shock.

GENERAL

All electrical connections must be in accordance with local and National Electrical Code (N.E.C) standards. If you are unfamiliar with proper electrical wiring connections obtain the services of a qualified electrician.

Remove the fixture and the mounting package from the box and make sure that no parts are missing by referencing the illustrations on the installation instructions.

ASSEMBLY AND INSTALLATION

- 1. Carefully unpack the fixture, lay out all parts on a clean surface.
- 2. Use the wire connector(7) to connect the ground wire from the fixture (4) to the ground wire from the post (3). Use the wire connector(7) connect the white wire from the fixture (2) to the white wire (1 neutral wire) from the post. Use the wire connector(7) connect the black wire from fixture (6) to the black wire (5 live wire) from post. Position the wires back inside the post cap(12). then put the Post Cap(12) on Post.
- 3. Install the bulb (11 not included) into the socket. Make sure they do not exceed the maximum wattage specified on the fixture's wattage rating label.
- 4. Attach the small soft pads(17)(include in the parts bag) on the middle of Glass Panel Insert the glass panel(10) into the slot in the bottom edge of the cage, then secure the glass panel by pressing the tabs onto the top edge. The tabs should be bent up as possible to hold the Glass panel tight.

ASSEMBLY AND INSTALLATION (CONT.)

- 5. Put the top cover (16) onto the cage (9), place the waterproof gasket (15) onto the top cover, then secure it by loop (14).
- 6. Screw the screw (8) through the holes on the post cap until the fixture is secure.
- 7. Turn on the power.

INSTALLATION IS NOW COMPLETED
