TIP: To add weight to the base, line the bottom of the planter with rocks or stones.

USE & CARE

LEVEL SURFACE: Select a flat, level surface to place this item before filling and using it.

INSPECT: Periodically check the hardware and tighten as necessary.

WATERING: Take care when watering. Overwatering may lead to hardscape and surface damage due to leaks and/or run-off.

MOVING: Remove your umbrella before moving this base. Do not allow the metal to drag on the ground while moving as doing so will scratch the powder coating, leading to rust.

CLEANING: Wipe surfaces with a damp cloth. Do not use chemicals, polish or abrasive materials when cleaning.

WINTER CARE & STORAGE: To prevent damage, empty and/or store indoors during freezing temperatures.

SCRATCHES: The powder coating is tough and durable, but some scratching is inevitable. To prevent rust, wipe scratched areas to remove moisture. Scratches can be repaired with rust-resistant paint (not included); consult an expert at your local hardware store.
