Notes for the Teacher

Why Diagnostic Testing?

Diagnostic tests are specifically designed to determine where a student should begin in the curriculum. Results from these tests give better direction for placement than a student's age or grade level since the course of study varies so much between schools and curricula.

What Portion of This Booklet Should a Student Complete?

This booklet covers four grades—1, 2, 3, and 4. Use this chart to decide which ones the students should work through.

Grade student is entering	Work through grade level(s)
1	Testing not needed
2	Grade 1
3	Grades 1-2
4	Grades 2-3
5	Grades 3-4
6 and up	Use test booklet for Grades 5-8

How Should the Test Be Administered?

Time. This is not a timed test. Students may take as much time as needed. Give periodic breaks, at least five to ten minutes every hour, and more often for younger students. Ideally, testing should be spread over a two-day period. Test weariness gives unreliable test results.

Guidance. You may help students understand instructions; however, do not hint at answers.

Environment. Inform students that the test is important, but avoid a tense atmosphere. Help them to feel that the best they can do is good enough. Check comfort factors such as lighting and ventilation. Keep noise and other disturbances to a minimum.

Progress. Since concepts in Language Arts are learned incrementally and spread throughout the year, the tests cover entire grade levels, not individual LightUnits. The activities in each test are grouped by concepts. The student should begin with the first concept and do as many activities as possible in each group.

How Do I Score the Test?

Using the answers in the teacher's manual, put a mark through the number of each question the student answered incorrectly.

Determine the number of activities done correctly out of the total for each grade level.

How Do I Then Determine Placement?

1. Fill in the **Diagnostic Test Summary** on page vii. If you are enrolled with Homeschool Plus at Christian Light Education, also fill in the second summary sheet on page ix. Tear out this perforated sheet and send it to Homeschool Plus and retain a copy for yourself. If you are not enrolled with Homeschool Plus, ignore the extra summary sheet.
2. **For Grade 1.** If the student has 92 or more correct answers, he is prepared for Grade 2. If fewer than 92 are correct, the student is not prepared for Grade 2. He should do all or most of Grade 1 Language Arts before entering Grade 2. If the number correct is 78 or more, check the test for an unusual weakness in one or more concepts. If most errors were made in one or two groups, perhaps some remedial work could adequately prepare the child for the next grade. However, exercise caution. It is better to build confidence in the child by letting him move quickly through material at an easier grade level than to frustrate him with a higher grade level than he can efficiently manage.

For Grade 2. If the student has 85 or more correct answers, he should be ready for Grade 3. If fewer than 85 are correct, the student is not prepared for Grade 3, and should begin with *Language Arts 2*.

For Grade 3. If the student has 118 or more correct answers, he should be ready for Grade 4. If fewer than 118 are correct, the student is not prepared for Grade 4, and should begin with *Language Arts 3*.

For Grade 4. If the student has 108 or more correct answers, he should be ready for Grade 5. If fewer than 108 are correct, the student is not prepared for Grade 5 and should begin with *Language Arts 4*.

THE COW

The friendly cow all red and white,
I love with all my heart:
She gives me cream with all her might,
To eat with apple tart.

She wanders lowing here and there,
And yet she cannot stray,
All in the pleasant open air,
The pleasant light of day.

And blown by all the winds that pass
And wet with all the showers,
She walks among the meadow grass
And eats the meadow flowers.
