No-Hassle High-Bay

The **No-Hassle High-Bay** provides uniform illumination across horizontal and vertical surfaces, and saves up to 50% in energy costs versus Metal Halide systems. Its die formed, 20 gauge steel housing with riveted end plate construction offers rigidity and integrity for years of use. The **No-Hassle High-Bay's** hinged ballast trays provide quick top access to the fixture's ballasts without removing lamps and its slotted vents along the sides effectively remove heat to extend ballast life.

Contact your sales representative for more information

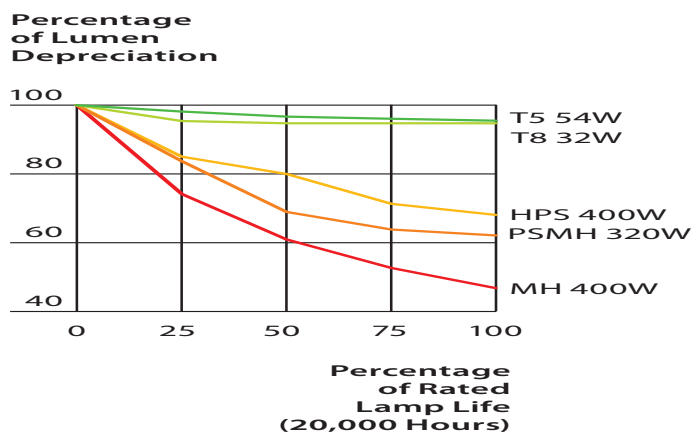

- ❶ Top ballast access with captive knurled screw for fast, easy maintenance without removing lamps
- ❷ Quick installing IDEAL® PowerPlug™ is NEC 410.73(G) and CEC 30-308(4) compliant
- ❸ Access plate with five knockouts to facilitate through-wiring
- ❹ Multi-voltage (120-277) ballasts
- ❺ Heavy-gauge housing assembled with rivets for increased rigidity
- ❻ Housing vents for heat dissipation resulting in improved lamp/ballast performance and life

Lumen Maintenance

PRODUCT NUMBER	DESCRIPTION
20344-120~277v	4 Lamp T8
20345-120~277v	6 Lamp T8
20346-120~277v	4 Lamp T5HO
20347-120~277v	6 Lamp T5HO

OPTIONS

Occupancy sensor
