ORiGami SQuishies

Traditional Origami with a Trendy Sensory Twist!

Use this set of Neon Papers, a HUGE Assortment of Stickers, and Fun Cardstock Details to create your own Origami Characters that actually SQUISH!

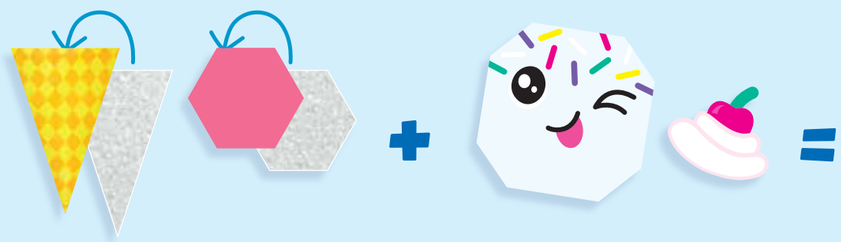

Find a clean smooth surface to work on. Follow the instructions and pictures carefully. Lining up your paper and making crisp folds will make a difference.

Video Tutorials Available

Origami is a craft that requires patience. If you need extra help, use the QR code to follow the video instructions online. You can start and stop the video as needed. Be sure to ask an adult for permission for online usage.

YouTube

Each character is created using a triangle or octagonal origami folded shape. Some characters will use both, or two of the same shape. Once your base shape is folded, add your squishy foam and stickers. Use the sticky dots to add fun details.

Sticky dots are adhesive circles that hold your cardstock pieces in place. They are not repositionable. Once the sticky dot is placed, you will not be able to remove it easily.

Follow these symbols and the diagrams below

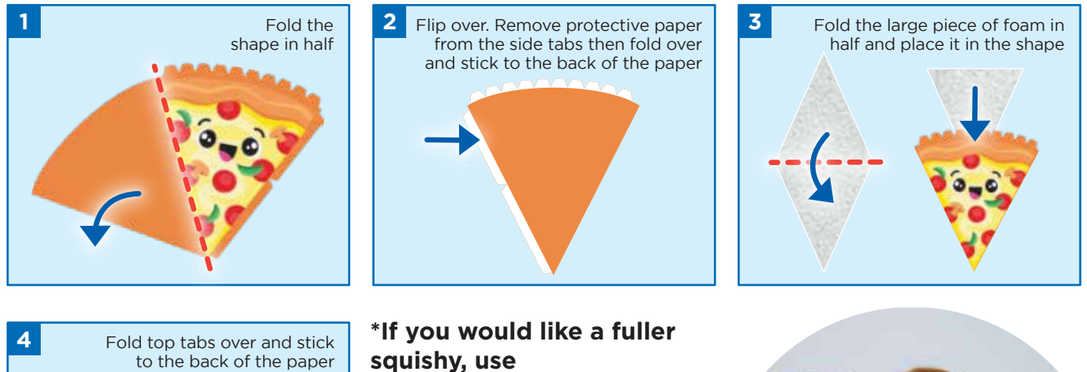

FOLD

FOLD / UNFOLD

FLIP OVER

LARGE SQUISHIES

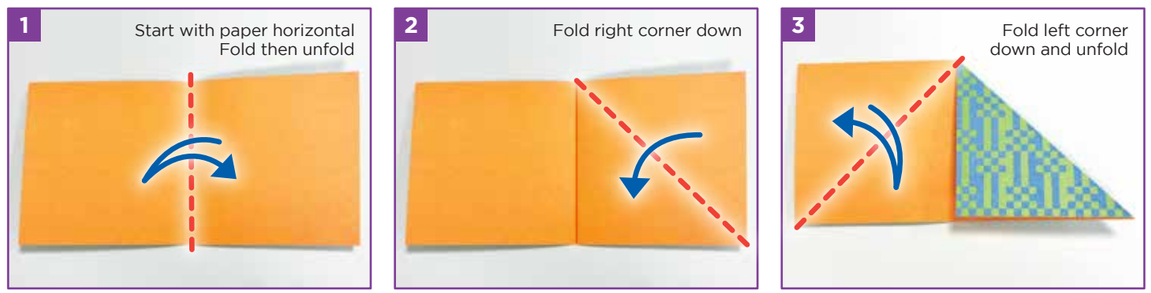

You can make a pizza, a strawberry, or flip the paper over and make your own creation!

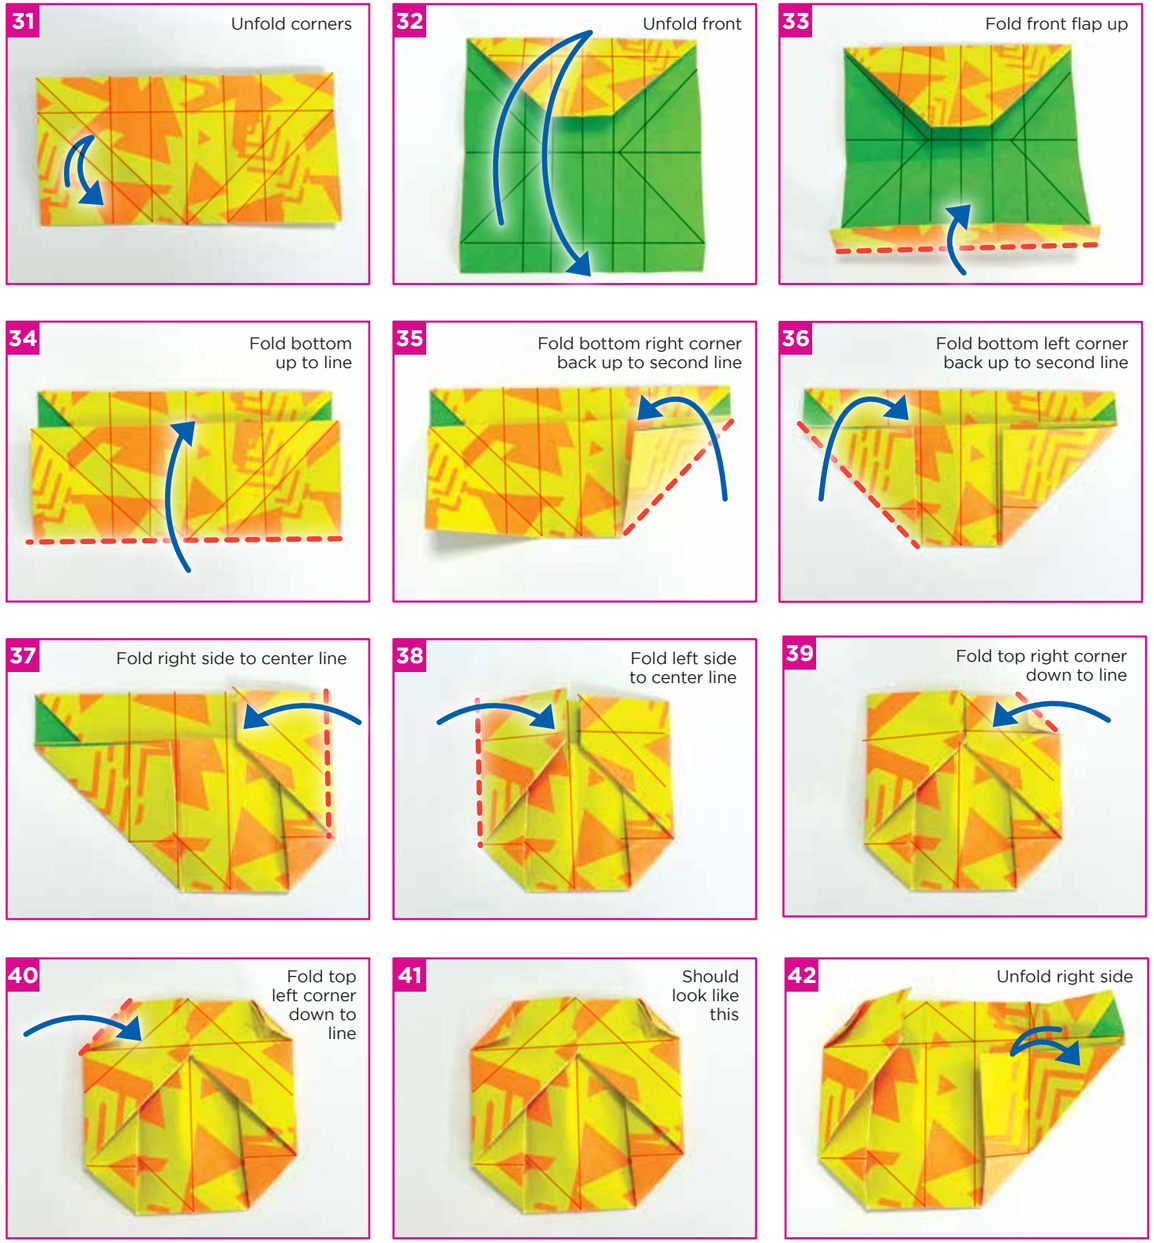

***If you would like a fuller squishy, use tissue, tissue paper or paper towel to add to the shape. Remember not to fill it too much or the shape won't close.**

TRIANGLE USE SMALLER RECTANGLE PAPER
