

AIRCRAFT LIFE PRESERVER SURVIVAL VEST (MSV971)

MUSTANG SURVIVAL WE SAVE LIVES FOR A LIVING

Designed specifically for pilots and aircrew to be worn over flight suits, the MSV971 is a lightweight, fire resistant and highly durable aircraft survival vest. Providing a full 38lbs of buoyancy, the inflatable cell - available in manual inflation - is comprised of two independent chambers, separated by a fully integrated floating baffle system. This provides for an orally inflated reserve chamber in the event that the primary chamber becomes damaged.
