

PODCBL

Allows the Power Pod systems to be used with an external source unit. The Bluetooth controller isn't used when installing the PODCBL.

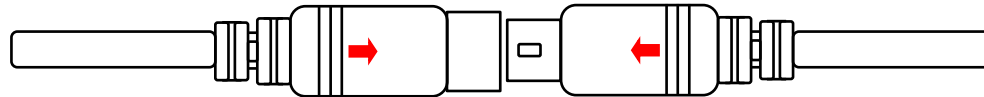

Compatible with the following only:

B82ABT, B64ABT, B62ABT, BM40AMPBT, B62RGB, B40RGB

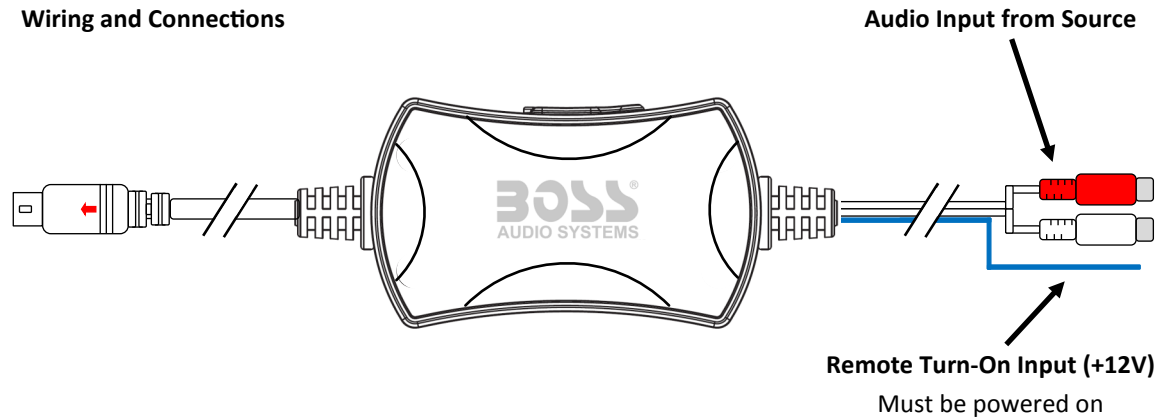

Installation

Attention:

Align Arrows before connecting DIN cables

Wiring and Connections

Input Sensitivity

Set switch to either "Hi" or "Lo" so it doesn't distort when your source vol is at max.

Cover the switch when finished.
