

Figure 1. Schematic representation of the protein structure. The NBD (Nucleotide Binding Domain) is shown in blue, the CSD (Coiled-Coil Stalk) in red, and the CSD1 (Coiled-Coil Stalk 1) in green. The CSD2 (Coiled-Coil Stalk 2) is shown in yellow. The residues 100-200 are indicated along the structure. A scale bar is provided at the bottom right.
