

# Vantage® Cutting Mats

Professional Self-Healing Mats

Dahle's Vantage® Self-Healing Cutting Mats are extremely durable and provide 1/8" of work surface protection. These professional grade cutting mats feature 5 layers of PVC construction with screened inch, metric, and angled alignment guides. Vantage® Mats can be used on both sides and are ideal for sewing, crafting, rotary cutting, and cropping photos.

## SELF-HEALING DURABILITY

Outstanding self-healing ability allows cuts to virtually disappear, maintaining a smoother surface and extending the life of the mat and your cutting blades. For versatility, you can use the mats on both sides. Use the top with the rulers and guides for precise trimming, and use the reverse side for free-hand work.

## PVC CONSTRUCTION

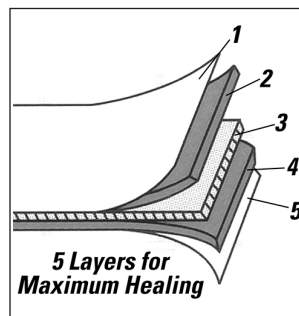

5-ply PVC construction creates a solid, non-glare work surface. The thicker inner core stabilizes the mat while the outer, resilient layers offer superior self-healing capability. These mats have no odor and are more durable than lower quality mats.

## SCREENED GUIDES

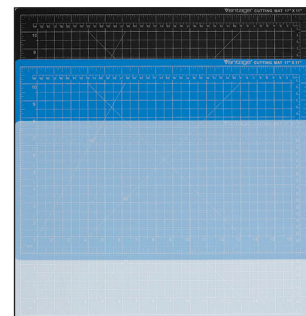

Whether you are cutting quilting squares or trimming photos, align your work precisely with the 1/2" grid and inch and metric rulers. Diagonal cuts aren't a problem with the 45° and 60° diagonal guides.

## Product Features

- Self-healing 5-layer design for maximum durability
- 1/8" PVC construction protects work surface
- Screened measurement grid for easy sizing
- Screened inch, metric, and angled guides (top surface)
- Surface material protects blades from becoming dull
- Mats can be used on both sides for versatility
- Ideal for cropping photos, cutting, sewing, and crafting
- Available in Black, Blue, and Crystal Clear

Featuring 5 layers of construction for the ultimate surface protection.

Vantage® mats are available in black, blue, and crystal clear.
