EP50 Cleaner Disinfectant

Use instructions

NOTE: To avoid excess foaming, pour cold water first or place dilution control system as close to the side of the container being filled. This is a concentrate product: **DO NOT USE UNDILUTED.** Always use with cold water. For disinfection, replace solution daily.

DISINFECTION: Heavily soiled surfaces must be pre-cleaned before using this product.

- 1) Dilute product.
- 2) Apply with a sprayer, cloth, mop or by flooding or immersion. Allow surface or item(s) to remain wet for 5 minutes.
- 3) Remove excess liquid.

For HIV-1 (Human Immunodeficiency Virus): Wear disposable latex gloves, gowns, mask or eye covering. Clean blood or body fluids from surfaces before applying the product. Any materials used in the cleaning process that may contain blood or body fluids are to be disposed of immediately in accordance with local regulations for infectious materials disposal.

MULTI-PURPOSE CLEANER or HEAVY DUTY CLEANER:

- 1) Apply solution on a microfiber cloth to clean the surface. Agitation may speed up the cleaning action.

GLASS CLEANER:

- 1) Apply with a sprayer or a microfiber cloth to clean surface. Agitation may speed up the cleaning action.
- 2) Wipe surface.

FLOOR CLEANER:

- 1) Apply solution with a mop or an autoscrubber to clean the surface. Agitation may speed up the cleaning action.

CARPET CLEANER or CARPET STAIN REMOVER:

- 1) Apply solution to surface to be cleaned with a bonnet machine, carpet extractor, spray bottle, terry towel or brush.
- 2) Agitation may speed up the cleaning action.
- 3) Once soils are loosened, pick-up solution with an extractor, wet/dry vacuum or a damp cloth.
