Game Rules

Bocce For Beach or Backyard

The object is to score the most points by ending each round with your color balls closest to the jack (white point ball). Toss a coin to determine the person who will throw the jack at least half way down the designated playing area. The same person who tossed the jack then throws one ball, trying to get it as close to the jack as possible. Team Two then throws, trying to get a ball closer to the jack than Team One. If Team Two gets closer, then it is Team One's turn. If Team Two's ball does not come closer, then they continue to throw until they get a ball closer to the jack than Team One or until they run out of balls. Then Team One throws their balls. You can knock your opponent's balls away from the jack to increase your score.

Scoring: At the end of each frame the team closest to the jack will get a point for each ball that is closer than the closest opponent's ball. The game is usually played to 12 points.

**See Illustration above for the recommended Tournament Court size. However, the court can be made to any size, to fit the space available.*
