Control Type: Digital touch controls

Capacity: 108 Cans

Door Swing Orientation: Right

Installation Specifications

This unit is designed for freestanding installation and indoor use only. Position the unit in a dry and well ventilated place. Avoid placing the beverage cooler near any source of heat or moisture, or in direct sunlight. For freestanding installation, allow 5 inches of space between the back and sides of the appliance, and unlimited clearance at the top of the beverage cooler are suggested to ensure proper air circulation to cool the compressor and condenser. Do not place underneath a table, counter top, or anything of the sort as this will not allow for proper air circulation.
