MOSAIC HUMMINGBIRD FEEDER

Please read this manual carefully before use and save it for future reference.

CHOOSING A LOCATION

A shaded location is recommended for this mosaic glass bird feeders. Mosaic glass can have a mirror-like, reflective effect when placed in full sunlight, which may frighten birds, making a location with indirect sun exposure ideal. Additionally, hummingbird food will spoil less quickly if the feeder is not in direct sunlight.

CLEANING

1. Mix a cleaning solution of 1 part vinegar and 2 parts hot water. Separate all components, place the plastic components in the cleaning solution to soak.
2. While the plastic components soak, clean the inside of the mosaic feeder using a soft bottle brush. Then, scrub the plastic components.
3. Rinse all components thoroughly, ensuring all residue and cleaning solution have been removed.
4. Allow components to air dry before refilling.

SAFETY STATEMENTS & WARNINGS

- Do not use harsh chemicals or abrasive materials to clean the unit as they may damage the product and void the product warranty.
- Do not hang the feeder too close to buildings or objects that may break the feeder during windy conditions. Storing the feeder indoors during high-wind conditions is recommended.
- Store indoors during freezing temperatures as exposure to freezing weather may cause the feeder to crack or break.

Any modification to the product or failure to follow recommended care will void the product warranty.
