

Play!

Shovel, build and play while engaging your senses. Have fun creating sand castles and playing with your crab on your beach adventure.

Note to Parents - Using the shovel and sand molds are a fun way for your child to practice their fine motor skills and hand-eye coordination.

Fun things to try:

- Count the items inside the bin.
- Name each item on the clings.
- Make up a story about your beach adventure.
- Call out the colors of each item.
- Memory game: Parents - hide some objects under the sensory sand. Have your child guess what is missing.
- Stretch and squeeze the sound tube to create different sounds. Try talking through the tube.
