

TORCH REGULATOR

CUT-RESISTANT WELDING GLOVES

We developed the Regulator for MIG welders working in heavy construction where sharp materials are in play. Regulator welding gloves are crafted with DuraHide™ Boar leather, constructed with Kevlar® thread, and lined with ANSI A4 cut-resistant fabric to protect working hands under the hood. Our patented HiRoller™ fingertip design repositions exposed seams to improve dexterity, durability and control.

FEATURES

- 1 Extended gauntlet cuff protects against welding slag.
- 2 FR Cotton lining provides added thermal protection.
- 3 ANSI A4 Kevlar® cut-resistant liner protects against punctures and lacerations.
- 4 DuraHide™ Boar performance leather doesn't dry out or crack with heat exposure.
- 5 Kevlar® threading throughout provides structural integrity and resilience under high heat.
- 6 Patented HiRoller fingertip seam design offers welders better dexterity, durability, and control.
- 7 Glide-resistant leather side seam reinforcement protects from surface burns while you work.
- 8 Comfortable Keystone thumb design gives you better control.
- 9 Gunn Cut glove design reduces seam usage in the palm for heavy material handling.
- 10 Internally reinforced fingertips provide crucial heat resistance and increased wear.
