

Easyfoam

VF32

Liquid Chlorinated Foaming Detergent

Description

Easyfoam cleaner is a high foaming, phosphate-free, chlorinated liquid detergent designed for general purpose cleaning in the food, beverage and dairy industries.

Effective

- Effective on most types of food soiling
- Assists stain removal

Phosphate-Free

- Does not contribute phosphorus to effluent
- Acceptable for use in areas that restrict phosphates

Cost-Effective

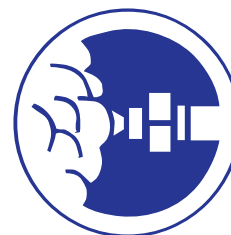

- Cost-effective cleaner

Easy-to-Use

- Free rinsing

Discussion

Easyfoam cleaner contains a blend of alkali, hypochlorite and a high foam wetting agent/emulsifier. It is effective for the removal of most food soils including animal and vegetable fats, blood and proteins. In addition, the presence of hypochlorite assists removal of organic and vegetable-based stains and helps to prevent build-up of protein film. This product is recommended for daily cleaning in vegetable processing, canning, wine and soft drink production. It is also suitable for use in abattoirs, poultry processors and the fish industry. This product can be used for cleaning food processing equipment and environmental cleaning such as floors, walls and drains. It is suitable for use with a wide range of foam application equipment.

Diverclean

Easyfoam

VF32

Liquid Chlorinated Foaming Detergent

Use Instructions

Use Easyfoam cleaner at concentrations between 4–32 mL/L (0.4 – 3.2% v/v) depending on the type and degree of soiling.

Technical data

Certification	Acceptable for use in food processing facilities.
Color/Form	Clear yellow liquid
Scent	Chlorine
Specific Gravity	1.16
% P	0.0
pH (1%)	12.6
pH (neat)	13.0
% Available Chlorine	2.35
% Free Alkalinity (as Na ₂ O)	7.1
% Total Alkalinity (as Na ₂ O)	8.75

The above data is typical of normal production and should not be taken as specification.

Safe handling and storage information

Store in original closed containers, away from extreme temperatures. Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet.

Product compatibility

Easyfoam cleaner, when applied at the recommended concentration and temperature, is suitable for use on the grades of stainless steel commonly found in the processed food industry. It is unsuitable for use on soft metals such as aluminum and galvanized materials. Always rinse surfaces thoroughly after use (within one hour). In the event of uncertainty it is advisable to evaluate individual materials before any prolonged use.
