

# Viper™/MC Broad Spectrum Cleaner and No-Rinse Sanitizer Wipes

A ready to use cleaner and no-rinse food contact sanitizer based on proprietary Accelerated Hydrogen Peroxide (AHP®) technology.

## Features & Benefits

- Superior broad-spectrum ready-to-use cleaner and no-rinse sanitizer on all surfaces including food contact and non-food contact surfaces
- Features the cleaning, sanitizing and oxidizing power of Accelerated Hydrogen Peroxide (AHP®)
- Leaves No Active Ingredient Residuals
- Environmentally Responsible. No Personal Protective Equipment required

## Applications

- Use to clean & sanitize food contact and non- food contact surfaces
- Suitable for use in retail, foodservice, hospitality, government institutions, schools, building services, healthcare environments and more

# Viper<sup>TM/MC</sup> Broad Spectrum Cleaner and No-Rinse Sanitizer Wipes

## Use instructions

### For sanitizing food processing equipment and utensils:

- Wipe pre-cleaned and rinsed surfaces with a Viper wipe. Allow to air dry.

### For cleaning of hard, non-porous, food contact and non-food contact Environmental Surfaces and Equipment:

- Wipe down surface with a clean Viper wipe to remove visible soils. Rinse with potable water.

### For One Step Cleaning and Sanitizing:

- Wet surface with Viper wipe and allow to remain wet for at least 30 seconds. Food contact surfaces should then be rinsed with potable water.

### For Broad-Spectrum Sanitizing of Pre-Cleaned Surfaces:

- Wipe pre-cleaned and rinsed surfaces with a clean Viper wipe. Surface should remain visibly wet for 30 seconds. Allow to air dry.

Discard used wipe in trash. Do not flush.

## Safe handling

Please make sure your employees read and understand the product label and Safety Data Sheet before using this product. The label contains directions for use; and both the label and SDS contain hazard warnings, precautionary statements and first aid procedures. SDS are available online at [www.diversey.com](http://www.diversey.com) or by calling 888.352.2249. Improper use or dilution may result in damage to surfaces and may result in health and physical hazards that match those of the concentrate.
