

### ***I. Product Description***

CRC Marine Grease is a tacky blue grease specially formulated for the use on boat trailers and other marine equipment. Based on an aluminium complex and fortified with an advanced additive package, it provides superior adhesion and excellent water shedding properties, resisting water wash out under the most severe water conditions. It protects from corrosion in salt air and water and other corrosive conditions.

### ***II. Application and Directions***

1. Do not mix greases of different base type. Use a solvent to remove and clean out all traces of incompatible grease before repacking.
2. Pack/repack according to manufacturer's instructions.

### ***III. Features & Benefits***

- **Resists water wash out** – Ideal for boat trailers and other marine equipment
- **Corrosion protection** – Protects from salt air and water and other corrosive conditions
- **Effective in a wide temperature range** – From -15°C to +230°C
- **Minimizes expansion or pressure build up in fully packed trailer wheel hubs**

### ***IV. Typical Properties and Characteristics***

#### **Physical Properties:**

Flash Point	> 230°C
Odour	Faint petroleum
Appearance	Blue semi-solid grease
NLGI	2
Specific Gravity	0.900

#### **Performance Characteristics:**

Temperature Range	-15°C to +230°C
-------------------	-----------------

### ***V. Package Description***

<b>Part Number</b>	<b>Size</b>
3121	397g Pot

CRC Industries NZ, Auckland NZ

## VI. *Special Precautions*

### **General:**

Avoid breathing dust, fume, gas, vapours, spray. Use only outdoors or in a well-ventilated area. Store in a well-ventilated place. Keep container tightly closed. Dispose of empty containers safely. All unused product should be disposed of in conformance with local and HSNO regulations, do not contaminate water supply.

### **First Aid:**

Swallowed – Do not induce vomiting. Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortably drink. Seek medical advice. Avoid giving milk or oils. Avoid giving alcohol.

Skin – Immediately remove all contaminated clothing including footwear. Flush skin and hair with running water (and soap if available). Seek medical attention in the event of irritation.

Eyes – Wash out immediately with fresh running water. Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids. Seek medical attention without delay.

Inhalation – Remove to fresh air. Lay patient down. Keep warm and rested.

Refer to Material Safety Data Sheet for more details.
