### **Maintenance instructions**

During the use of the product the screws should be tightened from time to time in order to ensure that everything is fixed firmly and nothing is loose. The children's seating arrangement is made of solid wood. With a natural product like wood, irregularities in color and texture are a typical characteristic and do not count as a defect.

Drying cracks can develop through prolonged heat periods, which will mostly degenerate back again when the temperatures fall. The wood of the seating arrangement is treated with an environmentally friendly water-based saliva and sweat-proof coating, and is therefore only semi-weatherproof. To prevent weathering and mildew formation it is recommended to treat the wood with an appropriate wood stain, and to repeat the process annually.

We recommend a dry place with sufficient air circulation for storage in the winter.

### **Disposal**

Please dispose of the packaging and disused products at local recycling centres.
