

CT Series 13 SEER

Central Air Conditioner

Visit continentalheatingandcooling.com and see our Professional Support Center for the latest installation manuals, specification sheets and additional information.

CT Series 13 SEER Central Air Conditioner

Continental's CT Series 13 SEER Central Air Conditioners will easily maintain a cool, comfortable temperature as they dehumidify your home. With quiet operation features and a natural grey color, CT Series air conditioners will compliment any outdoor living space.

Competitive Advantages

- WHISPER QUIET™ Operation
- Highest quality filter drier in the industry
- Motor assembly is removable from top of unit for fast and easy servicing
- Made with environmentally conscious, chlorine-free refrigerant R-410A which reduces power and increases the durability of your compressor
- Service valves and refrigerant connections are located outside the cabinet for easy accessibility and servicing
- Electrical connections are easily accessible through a removable service panel

Features and Benefits

- 17,400 to 53,500 BTU's
- 13 SEER Efficiency
- 1.5 to 5 Tons
- Advanced Coil Technology
- Industry Leading Compressor

Quality Filter

Continental air conditioners use industry leading filter driers which work to remove unwanted acids, dirt, particle debris and other contaminants from the refrigerant and are measurably superior to any other filter on the market.

Swept Fan Blade TECHNOLOGY

Continental air conditioners are made with modern fan blade technology. The unique swept shape of the blades make Continental air conditioners quiet as they efficiently provide increased air flow. With quality and longevity in mind, Continental's swept fan blades are made with a plated steel hub and aluminum blades for long lasting durability.
