

# PVC LevelBest® Complete Hub Fit Cleanout System With 3" Spud And Nickel Bronze Cover

Job Name	_____
Location	_____
Engineer	_____
Contractor	_____
Tag	_____ PO# _____

## Specifications

The LevelBest® drainage system offers the convenience of adjusting the floor level both before and AFTER the concrete has been poured. Its domed top provides protection during the concrete pour and is safe to use with power floats and power trowels. Additionally, this system can be used with tile rings for added versatility. Each LevelBest® drain is primer tapped.

## Materials

Cleanout Cover: Nickel-bronze  
 Spacer Ring and Test Plug: White PVC  
 Rough-In: Gray PVC

## Cover Load Rating

Light Duty
