

**Tip**  
to make your flowers pop, gently bend the petals up.

Gently pull the wire tails to secure flower onto the LED wire.

Add a dot of glitter glue to the wire for extra security. Allow to dry before moving on to the next steps.

The LED strand should look similar to this.

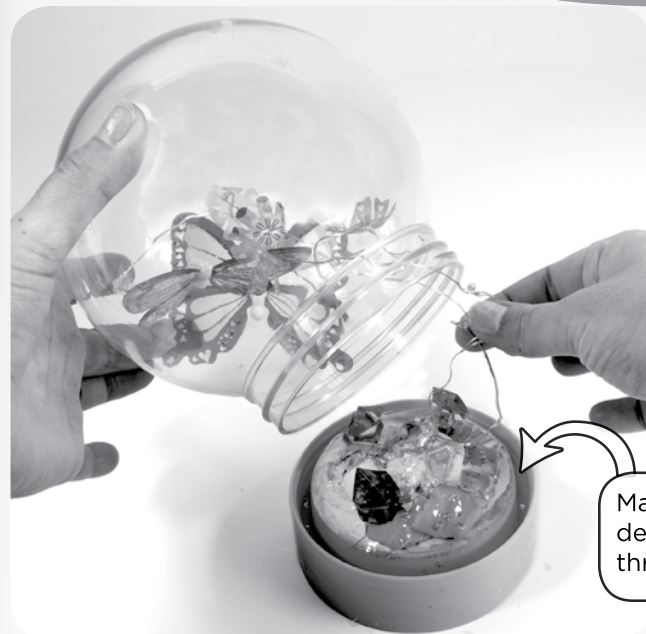

**Tip**

It helps to push the wire into the globe before screwing onto the base.

Carefully screw on globe when you are happy with your creation.

Make sure there are no decorations blocking the threaded areas on the base.

Add the final touches to the base or globe with glow-in-the-dark stickers.

## LED Strand takes 3 AAA batteries

Battery box is secured by a screw, a small Phillips screwdriver is needed to open it. Insert batteries following the diagram below.

### Battery Warnings:

Discard batteries carefully.

Do not allow children to play with batteries.

Keep batteries out of children's reach.

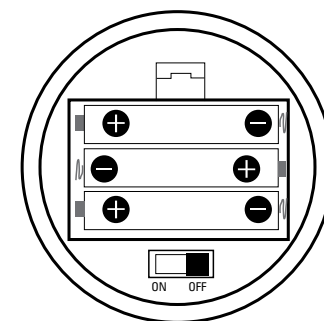

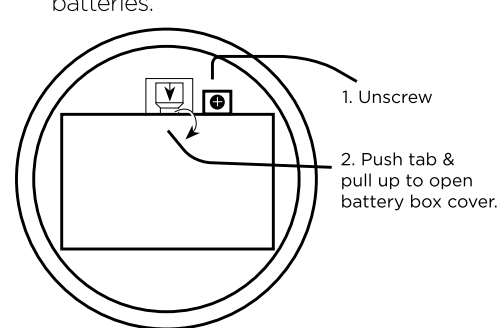

To avoid accidental swallowing, never put batteries in mouth for any reason.

If a battery is ingested, immediately seek medical attention and call your local poison center.

Be sure the battery compartment is tightly screwed closed.

Do not mix old and new batteries.

Do not mix alkaline, standard (carbon-zinc) or rechargeable (nickel-cadmium) batteries.

## Decorate the butterflies & flowers

Make sure to cover your workspace before starting.

Use glitter glue & rhinestones to decorate the butterfly wings and flowers. Set aside.

Allow butterflies & flowers to fully dry before using them.

**Tip** Leave flowers in the strip to make decorating easier!  
Punch flowers out when the glue is dry.

## Unscrew Globe & Base

Twist off the base, remove the clear globe. Be careful with LED wire when removing the globe.

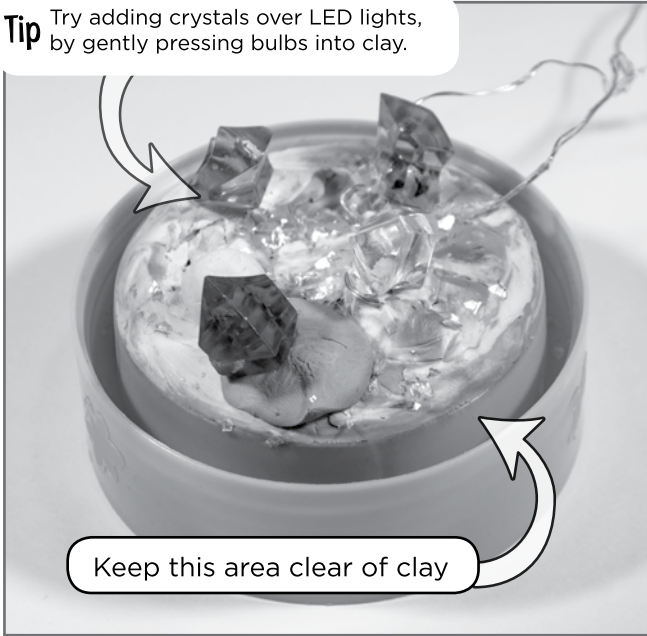

## Decorate the base

Clay can stain surfaces, make sure to cover work surfaces and protect clothing.  
Wash hands after using the clay.

Use the clay, crystals and glitter to decorate the base.  
Create a magical landscape for your butterflies!

**Tip** Try adding crystals over LED lights, by gently pressing bulbs into clay.

- Make sure to move LED light strand out of the way while decorating the base.
- Start by spreading clay on the base.
- Press crystals into the clay to secure them.

### Creating with clay tips

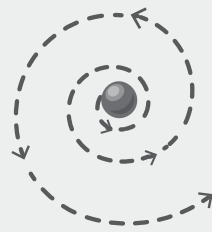

#### Marble the Clay

Squish and twist the clay colors together. You'll see the colors start to mix into each other. Stop squishing when you're happy with the result.

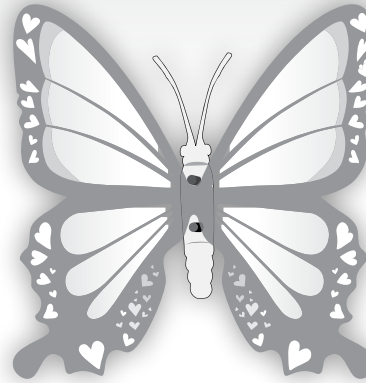

#### Make Balls

Roll small pieces of clay in a circular motion.

Try making different dimensional shapes!

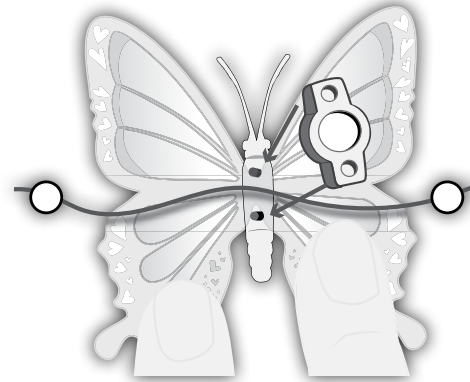

- 3** Place the wings over the body, as shown.

- 4** Lay the LED wire between the two posts.

**Tip:** It helps to hold down the wings with your fingers!

- 5** Match the round base piece with the butterfly body. Press firmly to secure the LED wire in place.

- 6** Space out your butterflies like this.

**Tip**  
To make your butterflies flutter, gently bend wings.

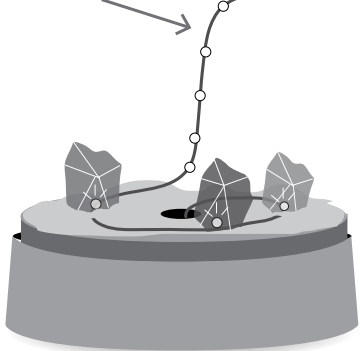

### Follow these steps for both butterflies

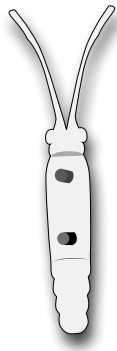

## Add Butterflies & Flowers

These steps may be tricky.  
Ask an older friend or adult to help you as needed.

- 1** Gently straighten the remaining LED wire.

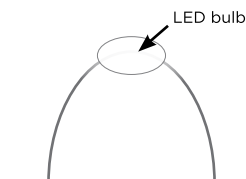

- 2** Start with the two posts of the butterfly body facing towards you.

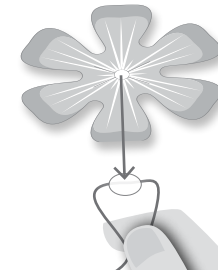

## Adding flowers

When completely dry, punch out flowers.

Gently bend LED wire.

Slide flower onto LED bulb.

Gently twist to secure.
