

## DYNAREST AIRFLOAT 300

### Air Mattress with Pump

#### ITEM 10442 – 36" x 80"

The DynaRest Airfloat 300 is a convenient, medical grade air mattress designed with user comfort in mind. The mattress is equipped with an air pump and a convenient pressure control hand dial to directly customize the firmness of the mattress. The Airfloat 300 has two settings: static mode, which is ideal for patient transfers, and alternating mode, which provides cell inflation for pressure redistribution.

- Alternating pressure mattress replacement system
- CPR valve allows for rapid deflation
- 2 modes: Alternating cycle and static
- Equipped with low pressure audible alarm and indicator light
- Weight capacity 400 lb.
- 1 per case
