

Mini WALLADesk™

SKU# 64100

The Mini WALLADesk is a space saving folding desk. Less than three inches deep in its closed position, the desk can be mounted anywhere a work surface is needed, from corridors to patient rooms, laboratories, exam rooms and more. Its seamless work surface, made from medium-density fiberboard (MDF), accommodates infection control efforts because it is easy to clean.

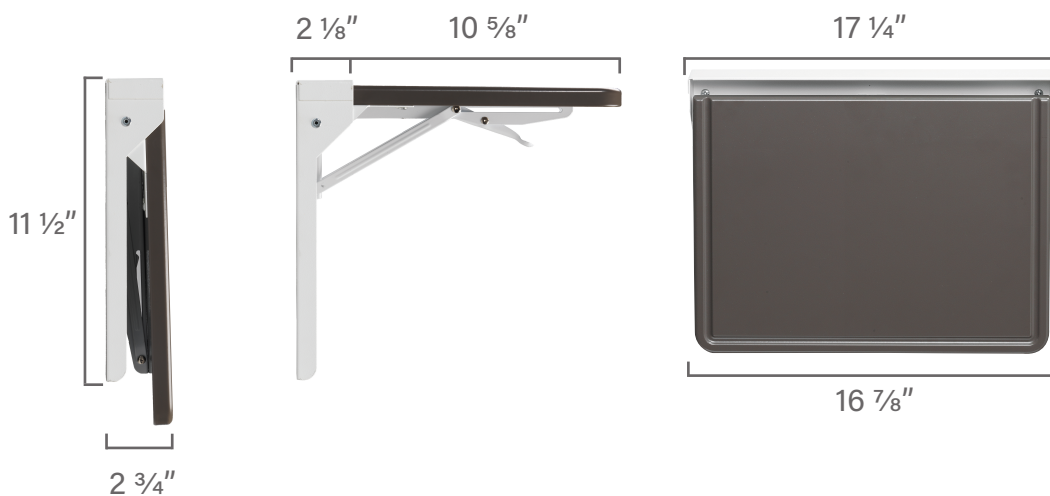

FEATURES

- Non-porous work surface made from MDF
- Powder coated steel frame
- Work surface auto locks into place when lifted and lowers with a squeeze of the lever underneath
- Four holes for mounting

USES

- The Mini WALLADesk can be used as a **med prep station** in a patient room, corridor, exam room or pharmacy
- Clinicians use it to hold their **electronic equipment** while they treat patients
- Visitors or patients can use it for **personal items** such as purses, snacks, cell phones and any other items they want to keep off the floor

DIMENSIONS

Sturdy 16 7/8" W x 10 5/8" D work surface available in Gray finish (as pictured). Custom finishes are also available.
